RECALL TO JOLT
EVERY OFFICIAL.Bill With Wholesale Application
A-Borning.Affects Every Elective Office
in Entire State.Expected to go Through Both
Houses in a Hurry.(BY DIRECT WIRE TO THE TIMES.)
SACRAMENTO, Feb. 7.—[Exclusive Dispatch.] The recall, which county home rule is to be sent over the whole State, according to a bill Senator Gates and Assemblyman Clarke are preparing and which they will introduce tomorrow.

The measure is not a constitutional amendment, but a bill to make all elective officials in State, district, cities and counties, whose terms are not fixed by the Constitution, subject to the recall.

At present the law will fix a petition of 10 per cent. for State and district officers and 15 per cent. for city and county officers. The measure is to take effect upon its passage, thus putting all non-constitutional officers under the recall without delay.

In fact, its passage may be so rapid that it will beat the new Los Angeles charter by taking effect ahead of that ponderous document.

It will effect thousands of offices all over the State and may furnish unusual political turmoil, as it is the weapon of the muckrakers in politics, particularly in local affairs.

MEASURE ON EMINENT DOMAIN.

Twenty Lawyers Unable to Agree
on Bill Drafted by Senator Bell on
Condemning Land.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, Feb. 7.—[Exclusive Dispatch.] The twenty lawyers in the Senate, Judiciary Committee, spent most of the afternoon today discussing Senator Bell's bill, No. 169, providing for a change of the law in the exercise of eminent domain in condemning property.

The eminent domain law (section 1249 of the Civil Code), provides that all value of property condemned in the exercise of eminent domain shall be determined by the jury on the basis of the value of the property at the time of the taking.

Bell's law amends this to fix that value at the time of the trial. Objections were made to this because it might be two or three years or perhaps longer before the trial is held and the meantime the property might appreciate in value.

It was suggested that the Bell law be amended to apply to all pending cases. It does not in its present form. This was met with opposition, as it meant that the value be that of the property at the time of the service of summons if the case is tried within a year; if not then at the time of the trial.

The twenty lawyers had so many personal instances of the value of the property at the time of the trial. It was finally voted to refer the Bell amendment to a sub-committee composed of Curtis, Gates, Wright and Taylor.

The final decision is important to Los Angeles, because of the large number of condemnation suits now being brought by Los Angeles city, especially in the harbor region.

ROBERTS IN WILLIAMS' SHOES.

Governor Johnson Makes Another
Machine Politics Appointment to
State Treasury.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, Feb. 7.—[Exclusive Dispatch.] Gov. Johnson announced today the appointment of Edward D. Roberts as State Treasurer, replacing J. P. Williams, who resigned.

The appointment of Roberts is understood to be a machine politics move. It is understood that he came North with the expectation of being made State Treasurer, but that he was not chosen.

Political Castigation.

COUNTY RECLASSIFICATION A SHOT
AGAINST HAMMEL AND FREDERICKS.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, Feb. 7.—[Exclusive Dispatch.] County reclassification, as it affects Los Angeles county, may mean political castigation for Sheriff Hammel and Dist. Atty. Fredericks, if the purposes of the Los Angeles delegation are carried out. This castigation does not show in the bill introduced by Assemblyman Cattell today, but it is expected to appear later. The measure, Cattell says, is perfunctory and practically re-enacts the existing status of county officials and was introduced largely to hold a place on the files before the forty-day limit expires.

Later, according to Cattell, the Los Angeles delegation is to get together and unite on amendments. There is where the whip is to be used. And if it is, Hammel and Fredericks may both suffer.

For instance it is practically sure that the new measure, when amended, will cut out one of the State fees allowed the sheriff and which amounts to several thousand dollars annually. This is a portion of \$5 allowed the sheriff and the deputy for transporting prisoners to and from State prison and is in addition to other compensation for the same service. In the view of the Los Angeles members there are other sources of fee profits that are to be attacked, too.

As to Fredericks, the law is to be amended so as to require the District Attorney and his deputies to devote all their time to their office. Private practice is to be forbidden.

Domineering.

"BIG STICK" PUTS IN BUSY DAY
BOOSTING FOR THE DIRECT VOTE.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, Feb. 7.—[Exclusive Dispatch.] Because the Assembly did not carry out its program today, Gov. Johnson emitted a roar from the executive office and sent the "big stick" into the chamber in the custody of Al McCabe, his private secretary.

The trouble was over the resolution Senator Bourne of Oregon asked Gov. Johnson to drive through the California Legislature by tonight, demanding direct election of United States Senators. Senator Bourne brought it to the Senate yesterday and it passed in haste today and was sent to the lower house. Not seeing the Governor's initials on it, Speaker Hewitt referred it to the Senate tomorrow. It is being prepared tonight by Atty.-Gen. Webb and his assistant, Raymond Benjamin, who began work after a private conference between a fair committee composed of James Rolph, Jr., Charles C. Moore, Frank L. Brown and Gov. Johnson, which lasted three hours. Benjamin was present and explained the scope of constitutional amendment No. 52, which authorized a law levy during the next four years to produce the great amount in equal annual installments.

Benjamin said he could not say what the act would contain. He did say that there had been no discussion of the labor question. He said that there is no objection in the Legislature to the act unless it is so framed that it will permit the people's right to become the plunder fund of the McCarthy-Gallagher-Tivins labor

oligarchy. Unless it contains a provision that the money shall be expended without discrimination in the employment of labor, there will be strenuous opposition from both San Francisco and Los Angeles industries. Apparently, from expressions of those attending the conference, no one has been anxious to meet this question, and it may be ignored in preparing the law, unless there is action on the part of the industrial interests.

The original demand that a non-discriminative provision be inserted came from the oppressed industries of San Francisco.

After the meeting Rolph sent this telegram to R. B. Hale, chairman of the labor committee at San Francisco: "Have had satisfactory conference with the Governor tonight. Acts prescribing powers and duties of State Commission to be introduced in Legislature tomorrow. Governor will send any assurances desired."

The commission alluded to is composed of the Governor and four other appointees, who shall have charge of the expenditure of the money. They are to serve without pay. There was no discussion, it is said, of the personnel of this commission, but the Governor expects to appoint it soon.

The bill of Senator Gates making the law of negotiable instruments uniform with that of every State west of the Mississippi was passed by the Senate this afternoon.

"TECH" INSTITUTE.

(BY DIRECT WIRE TO THE TIMES.)
SACRAMENTO, Feb. 7.—[Exclusive Dispatch.] Bills to carry into effect the tender of Throop Institute of its property to the State as a beginning of the California Institute of Technology were introduced today by Senator Farwell and Senator Gates. The measure was altered in its financial provision so as to ask but one appropriation of \$500,000 and also to shorten the term of the support from fifteen years to four years.

Your Druggist Refuses if Piles Ointment fails to cure any case of itching, bleeding, protruding piles in 14 days. See.

Senator Gates Preparing Bill for
Great Source of Income of Los Angeles
Justices.(BY DIRECT WIRE TO THE TIMES.)
SACRAMENTO, Feb. 7.—[Exclusive Dispatch.] Senator Gates is to strike a blow at one highly profitable Los Angeles industry. He is preparing to introduce a bill making the courts of justice of the county of Los Angeles a public utility, so that they will be permitted to receive any fee for performing marriage ceremonies.

He is doing this because he says the justices are to be elevated to a dignified position as an inferior court with four branches and adequate salary for all services and he does not believe they should charge for performing a magisterial duty.

The bill of Senator Gates making the law of negotiable instruments uniform with that of every State west of the Mississippi was passed by the Senate this afternoon.

The bill of Senator Gates making the law of negotiable instruments uniform with that of every State west of the Mississippi was passed by the Senate this afternoon.

GOULD WEDDING.

(Continued from First Page.)

fully, however, the line held and there was no rushing of the bride party, such as occurred when Marjorie Gould married J. Anthony Drexel last year.

A cheer went up as George Gould and his daughter stepped from a big limousine and entered the church, and as they did so, the first sunshine of the day peeped forth.

A moment later the notes of the wedding march sounded. That was at 4:45, and Lord Eccles and his best man appeared at the chancel.

The six bridesmaids, carrying lilacs of the valley, led the bride party. They were followed by the little attendants, Miss Gloria Gould with Master William Beresford and Diana Drexel with Master Marcus Beresford. Miss Edith Gould, as maid of honor, came next, immediately preceding the bride and her father.

CEREMONY SOON OVER.

The ceremony was over in twenty-three minutes and Lord and Lady Eccles posed for a battery of cameras before their car whisked them away to the reception at the Gould mansion on Fifth avenue.

The only unusual incident occurred when a horse drawing the carriage of Mrs. T. M. Kington, the bride's grandmother, shyed at an awning with Master Kington, almost verging upon illness, became greatly excited, and had to be carried into the Gould home by servants.

The illness of Miss Beatrice Cladin, one of the bridesmaids, necessitated a change at the last moment, and Miss Cladin's place was taken by Miss Anne Douglas Graham.

AMERICANS NOT
A BEST HUSBANDS.OLD-WORLD SAVAGERY BETTER
THAN ABOYER.Paris Newspaper Makes Cautious
Observations Regarding Women's
Heart in Connection With
Comment on Gould-Decles Wedding.

Better to Love Than Be Loved.

(BY DIRECT WIRE TO THE TIMES.)

PARIS, Feb. 7.—[Exclusive Dispatch.] That all women, including the American, prefer to admire their husband's courage and audacity, despite the pain inflicted thereby, rather than receive forever painlessly their husband's blind devotion, is the conclusion reached today by the newspaper Excelsior in a long discussion of the Decles-Gould match and international marriages generally. It takes up the challenge of Henry Clay Ide, the American Minister to Spain, in his objection to the marriage of his daughter to a Spanish grandee, is alleged to have declared that "Americans are the best husbands in the world."

The American man is young, honest, earnest, tender, and in passion and infinite in the faculty of devotion and adoration. They work day and night to give their wives comfort and luxury.

"Certainly it is a noble way of loving, but as a woman ages she perceives that it is better to love than to be loved. A woman in her innermost self prefers to marry her husband for his strength, courage, success and pre-eminent gifts, however painful to herself, than to be eternally and heartily adored. The American young men have too long looked over the charming drawings of Queens and believed it sufficient to open their eyes to soften the cruel and fair one; that it sufficed to leap into the bear pit and return the handkerchief to assure themselves of her tenderness forever."

"It is the greatest mystery in the world, but the American woman resembles her sisters of the old Latin world. She enters life with the same eternal instinct. Experience counts for nothing. With the splendor, fresh beauty and enthusiasm proper to young girls she prefers the old world marquis to the excellent Mr. Jones, who slaves all day in a twenty-four hour office on Broadway accumulating many dollars, but never making her suffer."

BURN VANISH AND YOUR STOMACH
WILL FEEL FINE IN FIVE
MINUTES.

Hundreds of readers of The Times will be forever rid of Stomach Trouble after taking a little Diapiesin, which promptly stops food fermentation and regulates the digestion, even in the worst out-of-order stomach.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch Gas and Eructate sour, undigested food, or have a feeling of Dizziness, Heartburn, Fulness, Nausea, Bad taste in mouth and stomach headache--this is Indigestion.

A full case of Pape's Diapiesin costs only 50 cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or Indigestion.

Ask your pharmacist to show you the formula plainly printed on these 50-cent cases, then you will understand why "Diapiesin" is the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most is that you will not need to resort to laxatives or liver pills for Biliousness or Constipation.

This city will have many Diapiesin cranks, and some people will call them but you will be cranks about this splendid stomach preparation, too, if you ever try a little for Indigestion or Gastritis or any other Stomach misery.

Get some now, this minute, and forever rid yourself of Stomach Trouble and Indigestion.

REAL HUMAN PHONOGRAPH.

Woman Who Picked Lemen in
Garden of Love Wears Out Court
Stereographer Telling Woes.(BY DIRECT WIRE TO THE TIMES.)
ST. LOUIS (Mo.) Feb. 7.—[Exclusive Dispatch.] Relating the annals of her married life, Mrs. Alice L. Lemen, formerly of No. 50404 Delmar boulevard, talked so far today in the Edw.sville, Ill., Circuit Court, that Judge Hadley ordered a recess of three hours to give his fagged stenographer a rest.

Mrs. Lemen is suing for divorce from her wealthy second husband, William C. Lemen. She began talking at 4 p.m. yesterday and at once found her voice, at a speed which kept Miss Kate Barthe's trained fingers flying to keep up. Even the plaintiff's attorney found it almost impossible to insert a word. Finally court adjourned for the day.

At 11 o'clock this morning the stenographer threw up her hands and declared that she could not continue. She was inquiring and she held up the fingers of her right hand, which were blue and cramped with fatigue. She had filled two notebooks and started on a third, and shook her head feebly to indicate her inability to continue.

Judge Hadley succeeded with difficulty in steering Mrs. Lemen's torrent of words and ordered a recess until 2 p.m. Then Mrs. Lemen resumed her gait again and kept it up until 4, when court adjourned.

SAIL DOWN THE MISSISSIPPI.
Joe Leiter and Party of Chicago People
on Pleasure Cruise to Tropical
Waters.(BY DIRECT WIRE TO THE TIMES.)
NEW ORLEANS, Feb. 7.—[Exclusive Dispatch.] Although warned by government officials at Memphis of the grave dangers attending their cruise further than Memphis because of the low water in the Mississippi and the great number of snags and submerged obstructions which the Federal boats are at present trying to destroy, Joseph Leiter, Chicago capitalist, and a party of Chicagoans, continued on their way from Memphis yesterday in the craft in which they left Chicago.

Everett Wrenn of tennis fame, is with the party, which includes also Mr. and Mrs. Leiter and James R. McKay.

Although the destination at present is New Orleans, the cruise may continue to the Gulf of Mexico, and thence further south to semi-tropical waters. Many wrecks have been reported lately owing to the shoals and snags in the river below Memphis.

"Righteousness."

ROOSEVELT TO
SPEAK AT RENO.Accepts Invitation From Old
New York Comrade.Declares His Interest in the
"Progressive" Cause.

[ASSOCIATED PRESS NIGHT REPORT.]

RENO (Nev.) Feb. 7.—Theodore Roosevelt, writing to State Senator Dix W. Smith, formerly a fellow member in the New York Assembly, accepted a date to speak in Reno on April 3, and declared himself interested in progressive politics as well as more so in "progressive Christianity."

"We must not let the bigots on either side bring any trouble to us in America," he concluded.

The letter came in response to Mr. Smith's urgent request that Col. Roosevelt speak in Reno on "Civic Righteousness."

Mr. Smith told how the people of Reno had subscribed \$100,000 for a Y.M.C.A. building in ten days and the most active worker was P. L. Flannigan, a Catholic and a member of the National Republican Committee.

Col. Roosevelt wrote as follows: NEW YORK, Jan. 31, 1911.

"Dear Mr. Smith: I was mighty glad to get your letter. I shall come to Reno, I expect to arrive from San Francisco on Monday, April 3, and to leave at midnight for Portland, via Oakland."

I just threw up my hands when I heard from you finally, Good for Senator Flannigan. Tell him how pleased I am about the part he took in erecting the Y.M.C.A. building. Interested in progressive politics, I am, and I am a Catholic and a member of the National Republican Committee."

I am standing on a square ethical basis. We have got to be against the man who is a crook without regard to whether he is a Catholic or a Protestant, and for the honest man, whether he is a Catholic or a Protestant, we must not let the bigots on either side bring any trouble to us in America."

Sincerely yours,

[Signed] "THEODORE ROOSEVELT."

WASHINGTON BRIEFS. Memorial to Lincoln. WASHINGTON, Feb. 7.—The McCall bill, creating a commission to determine on a suitable memorial to Abraham Lincoln in this city, with a maximum appropriation of \$50,000 for the use of the commission, was passed by the House today. The money for the memorial was raised through contributions from former slaves.

Fight on Shipping Bill. WASHINGTON, Feb. 7.—Representatives of shipyards and steamship interest appeared before the House Committee on Merchant Marine today and opposed the Humphrey bill to provide American registers for seventeen foreign built steamers of the United Fruit Company. The committee will vote on the bill Thursday.

Currency Measure. WASHINGTON, Feb. 7.—The Treasury Department bill authorizing the use of the gold bullion and foreign gold coin, which was introduced by the House today, was passed by the Senate. The measure was reported by Senator Smoot from the Committee on Finance, who explained that it was intended to meet a deficiency in the present law, which permitted the issuance of gold certificates only on gold coin. The bill was favorably acted on by the House.

Aid for Chinese Famine. WASHINGTON, Feb. 7.—The House Committee on Military Affairs recommended today the passage of a bill authorizing the use of an army transport to carry the food and supplies from Seattle to the famine districts of China.

Baumbach met Miss Blitsberger and the two became engaged. By the time

The wedding date arrived Baumbach found himself unable to leave business and wrote his fiancée to this effect: "I am sorry I cannot get away from here and travel to his home that the ceremony might be performed. He expects me." She could not make the trip to California.

Miss Bitesberger replied that she was willing and said that since she had no other relatives near Lancaster, best Middle-town the ceremony might be held in her home there. Baumbach agreed and the two met there today and the wedding was celebrated by Rev. H. George Siegler in the home of Mr. and Mrs. Frank Schot, a sister of the bride.

WANTS AGRICULTURE CIRCLES

Los Angeles Man Circulates Petition Urging Schools to Give Farming Instruction.

(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, Feb. 7.—[Exclusive Dispatch.] With the object of securing the teaching of scientific agriculture in the schools of the State, a petition has been circulated by a young man of Los Angeles, is in San Francisco obtaining signatures to a petition to be presented to the Legislature at its next session. The petitioner is expected from teaching the latest methods of gardening and farming to children.

The so-called dry farming method changes here. Any school, no matter how small, can carry on practical work in agriculture. It is work that tends to hold those whom our present curriculum drives away from us while it brings children closer to nature while it cannot fail to result in securing a higher moral standard among the frequent children."

Clark expects to leave for Sacramento in a few days with the petition.

ARRESTED FOR STEALING AUTO

One of the Offenders Claims to Be Son of a Prominent Argentine Business Man.

(BY DIRECT WIRE TO THE TIMES.)
SANTA BARBARA, Feb. 7.—[Exclusive Dispatch.] Clarence Hanson, who claims to be the son of the president of the Los Angeles Fertilizer Company, and Gus Linder, who drove the automobile of J. R. Jile at Ninth and Spruce streets yesterday, abandoned it today morning when the supply of gasoline ran out, and then took a cool teacher's horse and buggy, and were arrested about noon. They showed their money shot on their trail and cornered them near Montecito. The boys took to the beach, but a bloodless capture was effected. The pair are being returned to Los Angeles tomorrow.

NOTED PRIEST IS DEAD.

Father Theodore Valero, Who Administered Last Sacraments to Maximilian, Dies at San Luis Potosi.

[ASSOCIATED PRESS NIGHT REPORT.]
GUADALAJARA (Mex.), Feb. 7.—Father Theodore Valero, the Catholic priest who administered the last sacraments of the church to Emperor Maximilian just before his execution, died here this afternoon after long illness in San Luis Potosi, according to a report received by the ecclesiastical authorities here. He dropped dead as he was riding for a mass funeral.

HLEN CODY RACES DEATH.

Will Arrive in Pasadena This Morning to Visit at Bedside of Dying Sister.

TUCSON (Ariz), Feb. 7.—[Exclusive Dispatch.] After a hard ride by stage from Agua Caliente where he inspected oil claims Col. William F. Cody caught west-bound No. 1 at Sentinel this afternoon to hasten to the bed-side of his sister Mrs. Helen Cody Wetmore, who lies dying at a United States Army Hospital in Pasadena. Cody is reported to be leaving Col. Cody should arrive in Pasadena in the morning.

MONTANA KILLS SUFFRAGE.

HELENA (Mont.), Feb. 7.—The House killed the woman suffrage bill today by refusing to consider the vote by which it failed of a two-thirds majority. His still afternoon every member of the Legislature except two was present and voting and that W. G. Conrad received the highest vote of any day of the balloting; there were developments in the Senatorial situation.

NO PROGRESS IN IOWA.

DIES MOINES (Iowa) Feb. 7.—To-day John E. Porter, United States Senator in the Iowa Legislature resigned rank 85, Young 88; Kenyon 93; Garrison 96. Porter, Democrat, 48. Absent 12. Necessary for choice 52.

PASSE AFTER NEGRO.

WILSON (N. C.) Feb. 7.—The negro stevedore, slayer of Sheriff Mumford, has been located in a swampy area of Greens county and officers are closing in on him. Officers have orders to shoot him on sight.

ARCHBISHOP IMPROVING.

PHILADELPHIA, Feb. 7.—The improvement in Archbishop Ryan's condition continued today.

BARNY BACKS UP.

Undecided About Mexican Trip on Account of Pernicious Activity of Insurrectos.

Barney Oldfield was to have left this morning for Mexico City to give an automobile race meeting there on February 18 and say, but yesterday afterward he received a telegram from manager Bill Pickens to back up and attend a later message, for the insurgents had made things uncertain in the direction of El Paso, where Barney would have headed off.

"Should Barney decide not to go," says a reliable source, "he will rest here until Friday, if he possibly meet at San Diego or San Bernardino, and will then make his return to the arena dates.

"Oldfield will not be boxing exhibitions in Mexico, for he has decided to go there with Oldfield or without him."

LAMY BREAKS RECORD.

ARANAC LAKE (N. Y.) Feb. 7.—Tommy Lamy, the amateur skating champion, broke a broad jump on ice yesterday of 25 ft. 4 in., setting the world's record over 3 ft. 7 in. The old record, held by F. McDaniels of Minneapolis, Minnesota, dated December 23, 1897, when he set a new jump of 21 ft. 7 in. Lamy and Barker start for Rochester today and compete in skating contests.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

DE LANDS ARE IN CONTROVERSY.

Senator Leroy Wright Advises Caution in Matter.

Measure Would Abolish the Harbor Commissioners.

Legislative Committee Will Inspect the Lands.

SAN DIEGO, Feb. 7.—In reply to a communication from the Harbor Commissioners, the Senate Committee on Commerce and Navigation has advised that it will not take any action on the measure until it has had an opportunity to inspect the lands in question. The measure, which would abolish the Harbor Commissioners and vest the management of the harbor in the State Board of Harbor Commissioners, was introduced by Senator Leroy Wright. The committee, which is headed by Senator Wright, has been studying the matter for some time. It is believed that the committee will report to the Senate in a few days. The measure is expected to pass, but it is not yet certain.

OLD SETTLERS DIES.

Thomas P. Tighe, said to have been one of the oldest pioneers of San Diego, died this morning at his home.

He was 87 years of age. He was a native of Ireland and came to San Diego in 1847. He was a member of the San Diego Historical Society and was well known in the city.

STOLE FROM MONKEY.

Coronado thought it great to see an Italian organ grinder and his monkey, who had been stolen from a man in the city.

The organ grinder was seen in the city today. He was carrying a large organ and a monkey. The monkey was seen to have been stolen from a man in the city. The organ grinder was seen to have been stolen from a man in the city.

SLAUGHTER OF THE FATHER DIES.

John H. Sloan, father of Judge Sloan, died this morning at his home.

He was 87 years of age. He was a native of Ireland and came to San Diego in 1847. He was a member of the San Diego Historical Society and was well known in the city.

REPORTS SHOW INCREASE.

Reports through the local harbor in San Diego show a marked increase in the number of vessels entering the harbor.

The reports show that the number of vessels entering the harbor has increased by 10 percent over the same period last year. This is due to the fact that the harbor is now more accessible to foreign vessels.

ASKS \$2,000 DAMAGES.

W. H. Morgan, guardian for Henry V. Morgan, has filed a suit for \$2,000 damages against the City of San Diego.

The suit is based on the fact that the City of San Diego is responsible for the death of Henry V. Morgan. The City is alleged to have been negligent in its duties.

SECURES DIVORCE.

William C. Culbertson of the States cruiser South Dakota, has secured a divorce from his wife, Mrs. Culbertson.

The divorce was granted by the Superior Court of San Francisco. The grounds for the divorce were that the wife was guilty of adultery.

WANT FORCES TO SETTLE IT.

Citizens Tire of the Presence of Two Armies.

Bury Food to Prevent Insurrections from Taking It.

Race Riot Threatened Because of Shooting.

[BY DIRECT WIRE TO THE TIMES.]

CALEXICO, Feb. 7.—[Exclusive Dispatch.] It is the wishes of the people in general that Berthold and his band of revolutionists, who are camped in the Pichachi Pass, about 250 strong, and Col. de la Gacia and Mexican Federal troops, would come together and settle this great dispute of Mexican government.

Mr. Dutton, a prominent rancher living two miles from town, verifies the statement that thirty-five Mexican recruits, armed to the teeth and heavily laden with food and other miscellaneous supplies, are camped two miles from him, terrorizing the people with fear only to the extent that surrounding inhabitants are burying their food in the ground. In one case, sixteen miles west of here, while train service was cut off, the family would bury their only food left—beans—and when meal time came would go and dig up one can at a time.

No little trouble prevails in Mexico because of the shooting between Andrew Smith, the colored man, and a Mexican. The Mexican declares he was only lighting a cigarette, while Andrew Smith, who shot the Mexican, who will recover, tells a story of burglary. A race war is expected to be the outcome of this, as Mexico is still without police power to administer justice in the usual way.

Japanese and Chinese also are taking advantage of the situation by trying to cross the international border. One Jap, Kimito by name, was deported to Matatlan, Mex., via San Diego, by the immigration officials at Calexico. Two Mexicans were caught by the Mexican customs officials while trying to smuggle 300 pounds of ammunition on two burros across the international border in broad daylight today. They also carried one rifle apiece of up-to-date type, but no resistance was offered by either in arresting them. The United States Cavalry, First Company, Troop C, have been given the use of the high water tower in Calexico and, with the aid of strong field glasses, are watching the march of events for a radius of the miles around.

DEDICATORY EXERCISES.

Hemet New High School to be Dedicated with Impressive Ceremonies and Speeches.

HEMET, Feb. 7.—Owing to the fact that the new high school building can not possibly be lighted by Friday evening, the dedicatory exercises will take place in the assembly hall, Friday afternoon.

Addresses will be delivered by State Superintendent Hyatt, County Superintendent Raymond Cree, Principal Edward Doherty of the grammar school, and John H. Francis, superintendent of the Los Angeles schools, who will deliver the dedicatory address, the subject being "Industrial Education."

WATER COMPANY ASKS FAVOR.

Would Like to Have Permission to Put Its Own Water on Its Own Oranges.

COTTON, Feb. 7.—A petition from the Mutual Water Irrigation Company, asking to be allowed to use water from its own wells on its groves in this city, was received by the City Trustees. The matter was referred to the City Attorney.

SCHOOL CONCERTS.

Prof. George M. Green, Superintendent of City Schools, was granted the use of the City Hall one evening every six weeks, at which time the schools will give a public concert.

WANT CHEAPER GAS.

Attorney M. O. Hart, appearing for the people, brought up the question of cheaper gas rates. The San Bernardino Valley Gas Company furnishes gas for San Bernardino and Colton.

The plant is located at the former city, where the rate is \$1 per thousand, while here it is \$1.50 per thousand, with 10 per cent discount if paid by the tenth of each month. Action was postponed until the fifteenth, when General Superintendent Bell will be present to represent the interests of the gas company.

PEDESTAL PEST.

Several merchants were present asking protection from peddlers and solicitors with which Colton is invaded. A business license ordinance will be presented and presented at the next meeting to prevent this abuse.

NEWS BRIEFS.

The washing out of the East F-street bridge caused, by the recent rains, was discussed. Former Street Superintendent W. E. Vaughan stated that the bridge had been well built and should not have been washed out. He stated the trouble was caused by the gas company placing its mains under the bridge, thus removing the rock foundation. The Trustees decided to consult with the gas company with regard to redress.

The Colton Woman's Club program was in charge of Mrs. F. H. Pritchard this afternoon. The program was musical, being a Victoria recital of Faust, as given by the Symphonic Orchestra of Paris. Throughout the recital Mrs. Pritchard gave short talks of the various acts. The High School pupils attended the club in a body.

WORTHLESS CHECKS.

The police are looking for a man signing himself De Artz, who has been using many merchants here with worthless checks, signing the J. R. Gill Lumber Company to his hand.

He is said to have cleared up the matter by an automobile driven by W. H. Morgan, and that because thereof he is entitled to \$10,000 damages. Clara Morgan, wife of W. H. Morgan, made co-defendant.

PROPOSITION TO SEWER FARM.

OWNERS OF PROPERTY OBJECT TO ITS PROXIMITY.

Announce Their Intention of Fighting Present Plans and Suggest a Site Three Miles Further Out. Trustees Say the Farm Will Be Modern and Unobjectionable.

ANAHEIM, Feb. 7.—This city is not to secure its new sewer system and city farm without some opposition. A committee representing some of the property owners of the Magnolia district, near which the new city sewer farm is to be located, appeared before the Retail Merchants' Association last evening, and announced that they were going to protest against the proposed location of the farm, as they fear it will tend to depreciate the value of real property in its immediate vicinity. They propose to try and induce the City Trustees to continue the sewer about three miles further to the southwest to a section which is at present unsettled.

The City Trustees, who are now considering the proposition, are expected to make a decision in a few days. The committee, which is headed by Mr. J. H. Francis, is expected to make a strong case for their proposition.

RECOMMEND STARK.

By a unanimous vote the Merchants' Association has recommended W. Stark for the appointment as City Trustee to fill the vacancy caused by the resignation of C. L. Becker.

Stark has been in the city for a number of years and has the confidence of the business men. He is a native of California and is well known in the city.

WOULD ANNEX TERRITORY.

The North Side Improvement Association has been formed with the object of extending the city limits and taking into the city a strip of country lying next to the city on the north. This section includes the new sugar factory and some acreage adjoining, which is rapidly settling up, and the settlers need the advantages which annexation to the city would give them.

MORE SCHOOLS NEEDED.

The trustees of the grammar schools are having plans prepared for a new school building and will also select a site for the new building and then intend to call another bond election to secure funds with which to pay for these improvements. It is estimated that additional schools are needed and the trustees think that when the people see and know what they are to get for their money they will be on hesitancy in voting bonds.

SAN JACINTO BANK BUILDING.

Financial Concern Will Construct Artistic Mission Structure With Capacity for Two Banks.

SAN JACINTO, Feb. 7.—President A. G. Hubbard of the First National Bank of San Jacinto arrived in San Jacinto Monday, accompanied by an architect with plans for the new bank building. At an informal meeting of the directors of the bank, the plans were adopted and the Building Committee, consisting of President Hubbard and Cashier C. L. Emerson, was instructed to begin actual construction work at the earliest possible moment. The building will follow the mission style of architecture, so popular in Southern California. It will be a two-story building, located at the corner of Main street and San Jacinto avenue, the bank will have entrances on both streets. The main entrance will be in the northwest corner of the building. Pressed brick will be used in its construction.

The building will be divided into two banking compartments, with two vaults and a fire and burglar-proof vault. The building is generally supposed to be the First National Bank and the newly-organized Commercial and Savings Bank. President Hubbard states, however, that a definite decision has not been reached on that point.

Plans for the new building have already been purchased and are now in the hands of the architect. The building is ready for shipment as soon as the plans are approved. The Pacific Electric Company will supply power for the eight motors varying from twenty to 150 horse-power. Thirty to fifty

C. A. THURSTON

HE'S A SECRET ON THE SPOT.

Pope's Attorney to Testify in the Baldwin Case.

To Tell of Money Presented Mrs. Turnbull.

Coup of Defense in Fight for "Lucky's" Millions.

Unknown to counsel for the plaintiff in the Baldwin will contest, William A. Redding, whose name has figured prominently in the hearing as the attorney for Col. Albert A. Pope of Boston, came to Los Angeles last night and will be placed upon the stand by the defense today.

There has been no intimation by the defense that Redding would be called all the way from New York and his secret coming is a surprise. His testimony is considered important, because he will tell of the relations that existed between Pope and Mrs. Turnbull before she met Baldwin. Redding was employed by Pope to investigate the character of Mrs. Turnbull, after which he decided to give her the bungalow in Pasadena.

All the money alleged to have been given to Mrs. Turnbull by Pope passed through Redding's hands, and when he takes the stand he will testify that Pope gave Mrs. Turnbull some aggregating \$3000. When shown receipts for part of this money, Mrs. Turnbull denied ever having seen the papers. Redding will testify that these receipts are genuine.

Redding is the man whom Mrs. Turnbull denounced on the stand as being "hand and glove with Wood." She said that any papers with which they had anything to do should be regarded with suspicion.

EXPERTS TESTIFY.

The defense yesterday placed upon the stand three handwriting experts, called to testify as to the genuineness of the Wood letters, alleged to have been written by Mrs. Turnbull and repudiated by her as forgeries. Max Gumpel, one of the experts, when questioned in regard to the amount of money he had been paid as a witness, stated that he had received \$250 for his opinion on the letters, which he demanded in advance, and that he was receiving \$250 a day while on the stand. He volunteered the information that he was offered \$30,000 to give certain testimony in the case of Scherlin versus Hill, and that he had refused the offer.

Gumpel stated that none of the letters were forgeries and that they were written by Mrs. Turnbull. He told the jury that he once sat up all night to copy a page and a half of handwriting, and he did it six times before it satisfied him. And then, Gumpel declared, it was not so perfect but that a handwriting expert could detect the forgery.

"Did you succeed in imitating the signature of Scherlin so that Scherlin himself couldn't say whether it was his own or a forgery?" asked Attorney Dockweiler.

"I made an imitation of Mr. Scherlin's signature for the court, but I don't know," replied the witness.

NOT INFALLIBLE.

"Could an expert detect the forgery from the original?" asked Attorney Gumpel.

"Sure, he could," replied Gumpel.

"Do you mean to tell this jury," questioned Mr. Dockweiler, rising, "that you and your fellow experts have no developed an art by which you can tell infallibly whether a signature is genuine or not?"

"Well, you can't put that word 'infallible' on my head," Gumpel, refusing to answer the question. He wouldn't say that any expert on handwriting was infallible.

Milton Carlson testified that he has taught handwriting here for twenty-five years, that he had examined every letter in the case, and that he had letters and was prepared to state they were all written by Mrs. Turnbull. "It is not possible for a handwriting expert to be mistaken as to the genuineness or spuriousness of the handwriting of any person," he declared.

J. W. Wood, who taught handwriting in a business college here for fifteen years, testified that the letters were genuine, and written by Mrs. Turnbull.

NO CONSOLIDATION.

U. S. SECRET SERVICE APPEARS PERMANENT.

RECENT rumors and reports to the effect that the United States Secret Service is to be consolidated with the special service of the Department of Justice are believed by local Federal officials to be groundless.

The recent establishment of special agents of this department is believed to have given rise to the supposition that they would ultimately supplant the men who are now in the Secret Service.

These agents have been established in this jurisdiction for several months, but their coming was unheralded, and they took up their work so quietly that few persons outside of the government employees knew they existed.

A recent statement given out by the Secretary of the Treasury indicates that it would be over his opposition that the Secret Service should be abolished.

This quiet, powerful organization of men skilled in running down offenses against the nation is one of the oldest of the Federal institutions. It existed even before the Civil War. During the rebellion it was under the War Department.

A few years ago a squabble arose because the Secret Service men were accused of having been used in spying on Congressmen.

Orders were sent forth that the operatives should not exceed their limited field of tracking counterfeiters. One exception was made. The Secretary of the Treasury was given authority to use no more than three of these men at one time in making in-

NOT SCHMIDT, DYNAMITER.

Man Taken in Oklahoma City Was Released There Last Night.

(DIRECT WIRE TO THE TIMES.)
OKLAHOMA CITY (Okla.) Feb. 7.—[Exclusive Dispatch.] Charles Smith, held here for some days as a suspect in connection with the dynamiting of the Los Angeles Times Building, October 1, was released last night after a brief conversation with a representative of the Los Angeles County District Attorney's office. It was found that the prisoner is not M. A. Schmidt. The officer arrived this evening, and will return to California immediately.

Fighting for Millions.

PLAY ATTRACTS FLAGSTAFF.

Reservations for forty Flagstaff residents have been made for the play at the Nuyas for the 15th, 16th and 17th inst. They are coming to attend the premier performance of "In God's Country" at the Belasco, which was written by Hayden Talbot, formerly of Los Angeles. The play centers about Flagstaff and some of the citizens of that place are prominent in the plot. A special car attached to the limited will bring the Arizona delegation.

HALF-MILLION FOR BUILDING.

Southern Pacific to Enlarge Great Local Shops.

Construction Will Be Begun the Present Month.

Pay Roll Quarter of a Million More Yearly.

Plans have been approved by the executive officials of the Southern Pacific for an expenditure of \$500,000 for additions to the already large general repair shops of the company in Los Angeles.

Increased traffic in the southern district, including that part of the system between Fresno and Santa Barbara and El Paso, has made necessary the increasing of the capacity of the plant here.

H. V. Platt, general superintendent of the southern district, announced yesterday that \$100,000 of the amount approved has been authorized for immediate expenditure, and H. B. Tilcomb, district engineer, is now completing the details of the general plan for the big shop, which is to be built within six months. The building upon which construction is to be begun this month is a mill shop for car and engine repairing, with outside dimensions of 180x200 feet. It will be a fireproof structure, of brick and steel, costing \$100,000.

The great general shops, now to be expanded to meet demands occasioned by increasing traffic, represent an aggregate expenditure of more than \$2,000,000. The new shops will employ 1500 men, with a monthly pay roll of \$125,000, or more than \$1,000,000 a year. With the expenditure of the \$500,000 just approved the number of men employed and the pay roll will be increased not less than 25 per cent. The shops handle hundreds of cars and engines daily, requiring an extensive yard and track, which is now provided by entrance from Alhambra avenue.

So gradual has been the growth and development of the shops that few persons know just how immense an industry is maintained here by the Southern Pacific. District Engineer Titcomb furnished a summary of the buildings and equipment yesterday, as follows:

AN IMMENSE PLANT.

Outside dimensions.
Machine shop.....49x120 feet.
Boiler and blacksmith shop.....122x100 feet.
Car repair shop.....162x172 feet.
Car paint shop.....162x172 feet.
Boiler repair shop.....120x180 feet.
Two-story office and stores building.....150x 80 feet.
Oil car repair shop.....104x250 feet.
Power shop.....82x168 feet.
Copper pipe shop.....185x 90 feet.
Hospital.....22x 46 feet.
Aside from this the company has built and equipped a modern emergency hospital containing every facility for first aid to the injured. There is also a water plant for pumping and chemically treating water for use in engines and locomotives. There is a forty-six stall roundhouse, built at a cost of \$100,000.

Aside from these things the company maintains lumber yards here, where all of the lumber for use on the southern district is received and distributed.

CHRISTIE LOSES DAMAGE SUIT.

VERDICT FOR DEFENDANT IN MALPRACTICE CASE.

Unusual Suit Against Local Physician Is Finally Decided After Hard Fought Legal Battle—Plaintiff Submitted to Second Operation to Fortify Contentions of Attorneys.

The action brought by Henry Christie to recover \$50,000 from Dr. Rea Smith of this city, for alleged malpractice, came to a sudden end in Judge Houser's court, yesterday. The jury, after taking a single ballot, returned a verdict for the defendant.

With the announcement of the verdict by the court, one of the jurors rose in his place to inform Judge Houser that the opinion just read was the unanimous view of the jury. Less than twenty minutes elapsed from the time that the jury retired for deliberation until a decision was reached.

The courtroom was crowded with eager listeners when the jury made its report. General interest has been taken in the case, but there were no demonstrations of either approval or disapproval.

The operation complained of by Christie occurred in August, 1909. In order to show that Dr. Smith was mistaken in his diagnosis of the case, Christie submitted to a second operation at a local hospital. The result was that a growth was found in the patient, and testimony was given to the effect that it was of cancerous formation.

INCORPORATE EAGLE ROCK.

Supervisors Decide That Territory Which Objects Shall Not Become a Part of the Town.

The real reason for a hot fight over the incorporation of Eagle Rock was based on a desire to get a 5-cent street car fare, according to the statements made before the Supervisors at a hearing on the question yesterday.

The incorporators desired to include all the grounds of Occidental College because the institution has been promised a nickel fare. They believe if they could include the college in the town that the railway authorities would be compelled to give all the inhabitants the benefit of the low fare.

The college and residents of adjacent territory did not desire to be "within the incorporation, evidently believing that it would not give them benefits sufficient to make up for the increase of their burdens.

The Supervisors decided that the town should be incorporated, but the territory which objects shall not be

SADDLING A NEEDLESS EXPENSE UPON COUNTY.

ASSISTANT DISTRICT ATTORNEY FORD at the close of yesterday's session of the recount of the votes for District Attorney, called upon the lawyers for Woolwine to make good their allegations in a sworn petition of to agree to dismiss the action.

He pointed out the fact that the proceeding has developed that Woolwine has fallen far short of the average gain necessary to change the ultimate result and that an expense of from \$40 to \$50 a day is saddled on the county for a proceeding which can accomplish no good for the public.

"They have stated in a verified complaint that the votes were not correctly counted in certain precincts," said the attorney. "We have now counted more than one-fourth of the precincts, and the change has not been sufficient to show that the proceeding can be carried any further in good faith.

"If they know of precincts where the result is likely to be changed, now is the time to name them and we will proceed to count those ballots. If they cannot name them, then it is time to stop this proceeding and put an end to this expense.

"To carry this count on until it is finished will accomplish nothing, unless it is to cut down a majority. The taxpayers are not interested in that. The only thing that can be accomplished is to satisfy the desire to further the political ends of a certain faction."

Woolwine Had a Legitimate Gain of 217 Votes Last Night.

On account of two extra judges being called here the county is paying \$3 per day for rent and janitor service of the Supreme Court quarters. If the recount were not on, the one extra judge could have been accommodated without additional space.

NOT HALF ENOUGH.

Woolwine had a legitimate gain of 217 votes last night. One hundred and eight precincts have been counted and 14,620 ballots have been gone over. 79 change the result, figuring on the basis of precincts. Woolwine would have had to gain 448 votes. Figuring on the percentage basis relative to the number of votes gone over his gain would have had to be 620 votes. This instead of his showing of 217.

The results of yesterday's session were as follows:

Precinct No. 70, Fredericks lost 5, Woolwine gained 2; No. 64, Fredericks lost 1, Woolwine lost 3; No. 101, Fredericks lost 1, Woolwine lost 4; No. 102, Fredericks no change, Woolwine gained 2; No. 103, Fredericks gained 1, Woolwine, no change; No. 104, Fredericks gained 2, Woolwine, no change; No. 105, Fredericks gained 1, Woolwine lost 1; No. 106, Woolwine gained 2; No. 107, Fredericks lost 4, Woolwine gained 2; No. 108, no change. Woolwine made a net gain of 8 in the 14 precincts which were counted yesterday.

Hooked.

SUNSHINE NET ENMESHES HIM.

PROMINENT METHODIST EXPERT COMES TO STAY.

Dr. Waite of Chicago Shakes the Chilly East and Casts His Lot With Los Angeles—Will Do Things for His Denomination on Coast—His Specialty Is Sunday-school Work.

Sooner or later many of the people who do things, having once visited Los Angeles, find themselves filled with a desire to make this city their home.

Among the prominent ministers of the Methodist church who came here in connection with the Sunday-school work of his denomination about a year ago, was Rev. Oren B. Waite, D. D. of Chicago. Last week he arrived here with his family and took up his residence on South Flower street, and will stay here permanently.

He is field secretary of the board of Sunday-schools of the Methodist church, working under direction of the general conference, and will devote his energies to organizing the work throughout Southern California and the whole Coast. He attracted the attention of local Methodists through a course of lectures he delivered at Huntington Beach last spring, and steps were taken to meet his desire as well as others that he be placed permanently in this field.

Dr. Waite comes thoroughly equipped, to deal with the work before him. He is a man of delightful personality, and has had a wide experience as college professor, lecturer and preacher.

Dr. Waite is a graduate of Cornell College of Iowa; and of the Garrett Biblical Institute of Evanston, Ill., and has filled some of the most prominent Methodist pulpits in Iowa. He succeeded Dr. Homer G. Stuntz now secretary of the board of foreign missions, and as pastor of the college church at Cornell, from which he graduated but four years previously. His next step was to succeed Dr. Thomas Nicholson as professor of philosophy and biblical literature in the same college, the latter having been elected secretary of the board of education of the Methodist Church in Denver.

His purpose is to co-operate with local churches, in an attempt to increase the educational efficiency of the Sunday-schools, with enlarged and fully graded systems of studies, and for teacher training.

THE CITY COUNCIL YESTERDAY VOTED TO ACCEPT FROM STANBURY & POWELL THE SUM OF \$75,000 IN SETTLEMENT OF THE DAMAGE SUIT FOR FAILURE ON CONTRACT.

SAULT WAS SENTENCED TO SAN QUENTIN FOR FIVE YEARS, YESTERDAY.
Jerry Arnold, pleaded guilty yesterday, to failure to provide for his family, and his case will be set for hearing next Tuesday.

NO PEEDE.
Eight autoists were fined \$1 each yesterday by Police Judge Rose for violation of the traffic ordinance. Defendants were charged with not driving around the center of the crossing at Main and Wilshire streets. There was no mud-puddle at the crossing in question to afford an excuse.

POLICE COURT REVENUES.
Maurice Rothman, charged with stealing a horse's harness, was sentenced to thirty days in jail by Police Judge Rose yesterday afternoon. Rothman has been in jail twenty-five days awaiting trial and he will be given credit for that time.

WANTS HIS CHILD.
An action was brought in the Superior Court yesterday by Edwin C. Fairfield against Matilda Fairfield, his wife, asking that he be given the care and custody of his 14-month-old baby. It is alleged in the petition that the parents are now separated, the wife having abandoned the husband in February, 1910. He also alleges that the mother is not the proper person to have the custody of the child.

DAMAGES FOR ASSAULT.
Charles L. James, a commercial traveler, brought suit in the Superior Court yesterday against E. P. Ahern, proprietor of a business establishment on Moneta avenue. He alleges that the latter abused him, and finally ejected him from the store. Damages are set at \$300.

THE INTERIOR COURTS.
PAL'S EVIDENCE HOLDS EGER.
Both men will now be tried in Superior Court.

COURTHOUSE NOTES.
BREVIETTES MISCELLANEOUS.
OUT OF COURT. Judge Finlayson yesterday sustained the demurrer to the fourth amended complaint in the action brought by J. H. McCalland against H. E. Turner, executor of the estate of "Lucky" Baldwin. It was brought to recover \$12,000 alleged to be due on account of a contract and sale of land at Arcadia. McCalland was a former jockey in the employ of Baldwin. He invested in a piece of the Baldwin land, and misrepresentations in regard to its character were alleged.

DAMAGE ACTION. A jury in Judge Houser's court is hearing the suit brought by E. E. Frost against the Los Angeles Railway Company, to recover \$25,000 alleged to be due on account of injuries received by being thrown off a car of the defendant corporation.

COMMISSIONER NAMED. Judge Rives yesterday appointed Edward L. Payne to hear the evidence in the contest begun by heirs of the late Samuel Calvert Foy. They are objecting to the final account rendered by the widow, Lucinda M. Foy, now pending in the District Court of the county.

STAY OF EXECUTION GRANTED. Judge Crick yesterday granted a five days' stay of execution in the divorce action of Louise Brunner against Herman Brunner. The stay was granted on the bond of \$4,000 ordered given by Mrs. Brunner. The bond is for the preservation of the property involved, pending the appeal of Mrs. Brunner from her action for divorce before Judge Crowe. She was ordered to turn back to her husband about \$200,000 worth of property.

NEW TRIAL. The remittitur in the case of Willis Ermine, who is now serving a term of five years for the murder of William Salter, in this city, August, 1909, has been received from the Court of Appeals. The case will be heard again, the higher court having found an error in the record.

INCORPORATIONS. Articles of incorporation for the City of Los Angeles, California, were filed yesterday in the County Clerk's office. The company, capital stock, \$100,000, incorporated, A. A. and G. M. Perkins, and Edward Double, subscribed, \$25,000. The company, capital stock, \$100,000, incorporated, W. A. and T. C. Onahine, Edward J. Paul, W. A. and Alessandro Brown, subscribed, \$25,000. The company, capital stock, \$100,000, incorporated, W. J. and Rose Little, Alfred J. Morgan, subscribed, \$25,000. The company, capital stock, \$100,000, incorporated, P. J. Picher, G. A. Higgins, Miner P. Goodrich and O. S. Higgins, subscribed, \$25,000. Long Beach Home Builders, capital stock, \$75,000, incorporated, E. R. Miller, W. G. Brown, W. R. Dickinson, George Hodel and Lee L. Soule, subscribed, \$25,000.

CRIMINAL MATTERS. In Judge McCormick's court yesterday, Pasquale Gutierrez, charged with grand larceny, withdrew his plea of not guilty to that information, and pleaded guilty to petit larceny. He was sentenced to six months in the County Jail. Gutierrez is the partner of Marie Fernandez. They stole 200 yards of silk from a department store. The woman was released on probation by Judge Davis. She was wanted to testify in the Gutierrez case, but could not be located. Sidney Johnston, found guilty of assault, was sentenced to six months in the County Jail.

How to Make Better Cough Syrup than You Can Buy
A Family Supply, Saving \$2 and Fully Guaranteed.

Two physicians testified in the Bell murder case yesterday. They were Dr. Ross Moore of this city and Dr. Horace Vanderberger of Santa Clara county.

The cross-examination of Dr. Moore was along the line of insanity phenomena, but nothing of special interest was elicited. The witness was firm in his belief as to the mental soundness of Bell.

Dr. Horace Vanderberger, who met Bell at Ensenada, Mex., after he made his famous "retreat," with the yacht Alamo, testified last week as to the distraught and emotional condition of Bell at the time. He closed the evidence yesterday afternoon. He said Bell was mentally unsound and endeavored into a long dissertation of the pathological reasons indicating that belief.

Bell, in his judgment, had been severely shocked. He gave his opinion that the shooting followed with no idea of responsibility on the part of the accused.

VISIT PREMIER OIL PROPERTY.

Admiral Evans and Spillacy Stop at Coalinga.

Refuse to Discuss Object of Their Wanderings.

General News of Interest From Oil Fields.

(Special Correspondence of The Times.)

COALINGA, Feb. 6.—Rear-Admiral Harry D. Evans, president of the California Consolidated Oil Company, and Col. Timothy Spillacy, one of the principal stockholders of the Premier Oil Company, on which the Consolidated has an option, made a visit to the property in this field last week. They were met at the train by S. Spillacy, manager of the Premier, and were conducted to the lease by him. The gentlemen would make no statement regarding their visit to Coalinga, but it is believed that the option on the Premier has about expired and that the officials were visiting the property before making the final transfer of the property. The gentlemen returned to Los Angeles on the afternoon of their arrival in Coalinga.

Recent arrivals from the Lost Hills district declare that the operations in that section are at a standstill owing to the impossible conditions of the lease leading into the hills, which make it impossible for supplies to be hauled. E. L. Phelps, one of the owners of the P. & C. Oil Company, who is superintending the operations, states that the well is down 215 feet and has not down awaiting the arrival of drilling pipe. He states that it is impossible to reach his property even with a light wagon.

On section 7, 20-15, in the Coalinga field, the K. T. & O. Company is installing a high pressure pump in the well for the purpose of supplying the properties with drilling water. There are now nine new drilling rigs on section 11, 12-15. On the adjacent quarter of this section one well is producing about 200 barrels per day. There are also two producing wells on the northern quarter.

The Valley Oil Company, which is leased just at the outskirts of the field, has pulled its casing and is opening up the bottom of the casing. The casing will be replaced by a new one during the first of the week and the well will be back on the pump. The second rig has been up for some time, but the rig from the north has not been pulled in the derrick. The boiler is up and everything is in readiness for the installation of the engine and drilling paraphernalia.

The Berkeley Coalinga on section 2, 14 has well No. 1 doing about twenty barrels per day from a depth of about 250 feet. The well was drilled with a portable rig. Two light standard rigs are being built on the property. The shaly wells are being drilled and are producing in oil and gas. The well produced in oil and gas and about 20 gravity.

It is rumored that the Hinkley-Applegate interests, who have located on the Pacific lands on sections 2, 14 and 15, 18-15 and 20-15, have secured several miners' claims and will start development work. The same people are developing on Southern Pacific lands in the Midway and Maricopa fields.

The Republic Oil Company, on section 2, is drilling in well No. 1 with a hole is over 250 feet deep and is producing a very good sand. The work of drilling with a portable rig is being used for the purpose of detecting any show of water in the oil sand which may be at any time and is of great advantage to the operators.

Well No. 1 of the Esperanza Land & Oil Company, has been cemented off at a depth of four-inch casing that is 100 feet. In carrying down the four-inch casing, water was encountered. An effort will be made to run the casing down to the sand and again shut it off.

Articles of incorporation of the Coalinga Mineral-Oil Company, were filed last week. The company has a capital stock of \$10,000, of which \$5,000 has been paid up. The company consists of the following names: E. A. W. and M. M. Stephens.

Well No. 2 of the Empire Oil Company, was put on the pump for the first time after cleaning out last Friday and a production of 400 barrels was given, a better future for the well than No. 1. The well is being drilled about ten days previous and the intervening time was spent in cleaning out the hole preparatory to putting it on the pump.

The Charles Oil Company, on section 14, is down 345 feet and the six and one-half inch casing is being pulled. It is said that the California Coalinga Oil Company, which has been shut down some time, will resume operations. Well No. 1 is a producer and work will soon be begun on No. 2.

The Mohawk No. 2, which drilled through the cement at about 450 feet some time ago, has encountered a sand water sand which will require another cementing job. The first job was done in eight-inch casing and the six-inch has been ordered for the second.

Well No. 2 of the Blair Oil Company, is down over 150 feet in ten-inch casing and the work is progressing rapidly.

The Coalinga Royal has leveled an agreement for the purpose of drilling a second hole in this field.

REFINERY FOR ASSOCIATED.

The rumor is persistent in San Francisco oil circles that the Associated Oil Company has decided to embark in the refining business. It is said that the plant will be constructed at Santa Fe, where one of the pipe lines from the San Joaquin Valley field terminates.

It is believed that the building of a refinery by the Associated will mean a large increase in the price of oil, which both companies, with the Union Associated, will compete for the western trade in refined products. Some of the men believe that such a condition would mean an end to low prices for California oil.

GOING AFTER THE OIL SAND.

COMPANY'S BIG HOLDINGS.

The Venice and Kern Realty and Oil Company, with headquarters at Venice, has recently increased its capitalization from \$250,000 to \$1,000,000. It has twenty-year lease on 177 acres situated between Sunset and Newhall, and being described by the Geological survey as oil-bearing. Well No. 1 has been drilled through two strata of oil and the next formation is expected to be productive.

The drill is now in the Monterey shale and the hole is down 270 feet with eight-inch casing.

The lease is within seven miles of San Luis Obispo. The company also controls 250 acres in Ventura county upon which it expects to commence development work as soon as well No. 1 in San Luis Obispo is completed. V. T. Reuter is president and E. B. Browne is secretary.

TWO MORE NEW WELLS.

PALMER WILL DRILL.

The Palmer Oil Company will commence the drilling of two new wells in the immediate future. Well No. 5 is 2215 feet deep; No. 6 is down 150 feet, and work is progressing satisfactorily on No. 7 and No. 8. Several of these are due to come in soon and the directors plan to have from two to four wells always under construction, as all of a year is required to bring one in.

Gusher No. 1 keeps up a remarkably steady output of 1600 barrels per day. The derrick and rig for No. 2 are nearly rebuilt. When these were recently destroyed by fire the well was fast getting back to its immense output before it was shut down on the first of last September. In August it produced 250,000 barrels of oil, completely filling the pumps. Since that time, a new pump hole has been excavated and this additional storage, with the pipeline to be built, will take care of the flow from all the wells. The two new wells, Nos. 3 and 4, are each pumping about 400 barrels per day with increasing gas pressure. They are expected to begin flowing at any moment. The thickness of the oil sands in them is 24 and 270 feet, and the saturation is the richest ever found in the Santa Maria field.

Heavy Rains Retard Work.

Heavy rains and resulting bad roads have retarded development work in the Vallecitos field. The Range is Oil Company, however, hauled in a good supply of fuel oil during December, and has been enabled to drill right along. Its No. 1 well is nearly 500 feet deep. The formation is a peculiar shade of blue shale, heavily fossilized. Robert Anderson, chief of the United States Geological Survey in California, states that in this part of the Vallecitos, the Miocene oil sands can be expected to run from 800 to 1200 feet. Near seepages indicate that the oil will be of high gravity; probably not less than 25 degrees Baumé.

New Oil Company Formed.

Harry E. Sinclair of this city has organized the Hibernian Oil Company to develop a forty-acre lease secured from the Union on what is known as the Alvarado tract. Interested in the new concern are Charles Ballagh, C. H. Colby, George Sprague, W. H. Colburn of Sacramento and S. H. Martin of Berkeley. The offices of the company are at Bakersfield.

News Items and Personal.

W. D. Young, a well-known oil operator of Bakersfield, has been spending the past week in Los Angeles and elsewhere on account of the high water of Sterling. The offices of the company are at Bakersfield.

H. W. Altman of this city, who is largely interested in the Midway Northern property, spent last week in the oil field in the Midway district where the company has one of the show wells of the field.

C. T. Voorhees, secretary of the California Oil Men's Association, has resigned because of lack of interest in the organization and taken up his abode in Arizona.

Z. L. Phelps of Coalinga recently made a trip to the Lost Hills oil district in a spring wagon. In returning, he was on the road for two days on account of the high water. He says all work in the new field had stopped because of the inability to get material into the country.

Superintendent Byrnes of the Pulverda lease between Lost Hills and Coalinga, with his men, had the unique experience a few days ago of being marooned on the desert with all communication cut off from the outside world. The recent rains were the cause.

The Standard Oil Company is proceeding rapidly with the work of doubling the capacity of its pipe line from the northern oil fields to the coast. Many men and teams are being employed for this work.

C. D. Greenleaf of the Penn Midway Oil Company came in from the lease the other day with the information that almost 100 feet of the oil sand had been penetrated and a big well is daily expected.

LURE OF GOLD FEEDS FIRES.

FABULOUS OFFERS OF REWARDS ENTICE RECRUITS.

Former Governor of Chihuahua Here Declares Insurrectors Are Doomed by the Massing of the Federal Troops—Dias Great Work Recognized in Mexico.

"The lure of immense rewards to come with success, feeds the fire which keep alive the present revolutionary trouble in Mexico," said Jose M. Sanchez, who was appointed Governor of Chihuahua at the time Henriquez Cerezo was taken from that office to fill the higher one of Minister of Foreign Relations.

Sanchez, with his wife and daughter, arrived at the Van Nuys yesterday morning, after a long detour from Chihuahua to Torreon and hence to the Pacific Coast, taking the West Coast road instead of the Mexican National line from their home.

When asked whether he was fleeing from the present trouble, Sanchez, who was succeeded at the last election by Albert Terrazas, laughed.

"I have been planning for a long time to come to Los Angeles to visit my relatives and would have been here sooner were it not for the troubles. I was merely a merchant of Chihuahua and have never mixed in politics, my appointment to the governorship having come through friends, rather than from my own seeking.

"The revolution will not last long, perhaps another month or two, as Federal troops are being rushed into Chihuahua and other States where there is trouble. The revolutionists have had things their own way for the simple reason that they have met with no real opposition. They have practically no equipment to carry, and for that reason they have been able to move about rapidly. With the greater number of troops on hand, it will only be a short while before they are cornered and forced into a real engagement."

The outcome of this engagement to Sanchez was a victory for the government, expressed in a shrug of shoulders and an eloquent gesture of the hand. As to the exact cause of the revolution, Sanchez attributed it to dissatisfaction with a certain official in the cabinet of Diaz, rather than with the President himself.

"Even the lowest peon recognizes the wonderful work which has been done by Diaz," he continued. "His mighty hand is in every great work that has served to bind the various States of Mexico into a whole. A number of his selections for cabinet officers have been severely criticized by his few enemies, and they have used these as a weapon to stir up the strife.

"The younger Madero, who sought the Presidency of the country, being that he was doomed to defeat, scattered his revolutionary precepts and, in some places, they took root and caused the uprisings that have been heard of in this country. They have not amounted to a great deal, the present army of Orozco being perhaps the largest that has yet assembled.

"The men who join the revolutionists are all promised fabulous rewards if the cause is successful, and it is this phantom that they are chasing, in the hope that they will finally reach the pot of gold at the end of their rainbow."

NOT PATRIOTIC ENOUGH.

Reds Captured by Rurales Near Mexican Border, Plead They Were Really Taken on American Soil.

Dr. James A. Ketcherside of Yuma, arrived here yesterday with news of a unique and interesting play for the necks of three men who were captured by the Andra on the Arizona side of the line, directly across the border from the Mexican customs station known as Algodones, the same being Spanish for cottonwood. Dr. Ketcherside is the surgeon-in-chief of the field hospital run for the benefit of the big Colorado River project which J. A. Coker is handling for the United States government upon Mexican territory. That is how he happened to be where he could watch the play at Andra.

When Mexicali was taken the six Mexican customs officials and the little bunch of rurales protecting them and their outfit moved across the line from Algodones to Andra, where they are still camping. They made a fort out of a steel ore car turned on its side, and at night they sleep in another car like it. From the start of the row until the present camp has always been under guard by the rurales. Several days ago they captured three straggling revolutionists who were hunting the chance to die the death of patriots, but who wouldn't embrace the opportunity when it came. The Mexicans were for shooting the revolutionists immediately, but the prisoners objected seriously to this informal programme because they had taken great pains to have themselves captured on American territory. The Mexicans took the matter up officially and learned that if the prisoners were shot it must be done in purely unofficial style. Thereupon they let them go.

Dr. Ketcherside says the work of turning the Colorado River bed into its natural channel so that the Imperial Valley lands will have permanent and abundant protection, is progressing with effect. The United States has 1000 teams and 1500 men at work.

The local business of Dr. Ketcherside and of H. C. Johnson, the surveyor of Yuma county to accompany him here, is to purchase drills for a mine which they are opening in the Castle Dome district twenty-seven miles north of Dome station. It is a gold and silver proposition and they call it the Big Eye because it has on the surface a chudash of free gold-bearing mass, yesterday. He will take up his new duties today.

The engineer said that he did not have any definite plan of procedure to outline at this time, but intended to begin a minute study of conditions here, which are widely different from those of his native State.

Joyner is slated to succeed Chief Engineer Loder, of the Highway Commission, on July 1. Both the commission and the engineer will probably be relieved from office at the same time.

RAIL FIXED.

The man who is believed to be C. F. Philpot, a member of the Mabray gang which swindled by means of the use of the mails, was arraigned before United States Commissioner Van Dyke, yesterday. His bail was fixed at \$2500.

RECALL OF JUDGES.
The question involved by the proposition to extend the recall to the judiciary is really whether lawsuits shall be decided by popular vote. If it shall prevail, the spellbinders will have their innings, and the best law practice will fall not to attorneys learned in the law, but to clever public speakers who know how to appeal to a popular audience.

In a murder case, for instance, the question will be not did the defendant with malice aforethought hide himself behind a hedge and shoot the deceased, but was not the deceased an undesirable citizen, who, on account of his unamiable disposition and unpopular career, ought to have been removed on general principles from the scene of human activities, and did not the defendant deserve the thanks of the community for taking a pop at him. If the deceased was a Chinaman, a Jap, or a heathen Hindoo, it stands to reason that any judge who should fail to instruct the jury to acquit the defendant, ought to have the ermine snatched from his shoulders. If in a civil suit is an equity case, where it was sought to set aside a conveyance of real estate, because the defendant had bought it from a widow who sold it for less than its value, and the judge granted a nonsuit, because the widow had neglected and refused to return or offer to return the money that the defendant had paid her, then, if the community sided with the widow—as chivalric communities usually do—they could vote the judge out of office, and the judge who took his place being instructed and enlightened by the vote which compelled his predecessor to leave the bench would be careful to give a different decision.

One result of the adoption of the recall of judges would be that any lawyer possessed of a proper sense of self-respect would not accept a judicial position.

ENGLAND AT PANAMA.
Whatever domestic dissensions may exist in British politics; however suffragettes may give omissions with eggs that are overripe to unpopular Cabinet officials, the government of our transatlantic cousin is not overlooking any bet so far as the business interests of Englishmen abroad and the extension of the sphere of influence of the empire is concerned. In Panama, England is inviting herself to a banquet where she has not contributed to the viands, and where she does not propose to pay any part of the cost of the spread. It will cost Uncle Sam about \$500,000,000 to dig the ditch across the isthmus. Among the incidental benefits created by its construction will be the opening to settlement and cultivation of millions of acres of fertile land. This land lies to the southward of Panama between the Canal strip and the Republic of Colombia. It is a portion of the republic of Panama inhabited by only a few thousand natives and a handful of "spagnoty men." In the course of events this section, as well as all the rest of Panama, would be apt to call for annexation to the United States, and even without annexation its development and the control of its commercial and business opportunities would fall into American hands.

England has been swift to see this, and she is equally swift in making a very shrewd and what promises to be a successful effort to seize the advantages which, morally speaking, do not belong to her. There has been formed in London a corporation called the "Balboa and Pacific Estates Limited." This company has quietly made a contract with the government of Panama for the construction of a railroad to begin at "David," and proceed toward the Colombian line. It is intended to ultimately be a link in the railroad that will connect the continents of North and South America. This company is granted by the Panama government 400 hectares of land for every kilometer of road constructed, or about 1500 acres for each mile. A right of way of fifty meters is granted, together with all lands necessary for docks, terminals, storehouses and stations. All materials used in construction are to be admitted free of duty. Taxes will be one-quarter of 1 per cent. of the gross receipts for fifteen years, one-half of 1 per cent. for fifteen years, 1 per cent. for fifteen years, and 1.14 of 1 per cent. for thirty years. At the end of seventy-five years the government is to be allowed to purchase the road at a valuation.

That the London company will favor English subjects and to an extent exclude all others from participation in the benefits of this enterprise goes without saying, and that the republic of Panama, outside of the ten-mile strip, will be dominated by English influence and filled with British subjects is most probable. These settlers will never consent to annexation to the United States, and will probably look to making Panama a British colony.

This contract is subject to ratification by the Panama Assembly. What steps our State Department is taking to guard the interests of our country, by demanding proper modifications of the contract, is not known. If it shall be ratified by the Panama Assembly without modification, England will be able to skim a good deal of cream from the milk given by our cow, without ever having fed the cow, or helped to drive her up or to milk her.

THE THIN GRAY LINE.
The vivid account printed in The Times recounting the reunion of the surviving members of "The Jayhawkers of '49," held at Lodi on Monday last, revives interest in that immortal band which crossed the plains or came by ship around the Horn in the rush for the California gold fields which instantly followed the announcement of Marshall's discovery of the first nugget in the millrace at Coloma, January 24, 1848.

The youngest survivor of the Jayhawker party who was present at the dinner referred to was John B. Colton, aged 81 years. There is left now of all those wonderful men of the early days only a thin gray line. Soon "The Days of '49" will be history. The last man will have been gathered to his fathers within the present generation. Thus will that deathless chapter, together with the Mission chapter and the Bear Flag Republic chapter in California history, be closed. The last survivor of the Mission era died long ago, and for some years past no man has lived who took part in the Bear Flag War.

Thus we see that the California, which began with the arrival of Junipero Serra at San Diego in 1769 is growing old. Behind us there is already the swing of the centuries. The glamour of romance grows more and more dim.

flower-flamed valleys that lie in the purple dusk.

As the historian sits down to write the great story of the land of Heart's Desire there will be no chapter in the tale more wonderfully fascinating than the story of the Argonauts and the pioneers. They were the men who framed the lasting timbers of the State and nailed upon the pinnacle of the completed structure the flag that Betsey Ross wove from summer rainbows and wintry stars.

Yes, California has grown old, and yet she is ever young. Her great destiny has just begun. From within the treasure-house of her hills and the tireless generosity of her soil we are only beginning to gather a boundless wealth.

IRISH PROTEST AGAINST UNCLE JOE.
The Irish member of Parliament—Mr. O'Connell—who refused to join in the complimentary vote to the Speaker of the House of Commons, had really no grievance against that presiding officer. He was voicing his disapprobation of Uncle Joe Cannon and will, on his arrival in this country, take high rank as a Tammany Democrat for his action. He was casting a sympathetic vote, so to speak, against that parliamentary tyrant which prevents a legislative spellbinder from postponing the public business in order to parade his tropes and his rhetorical coruscations before an admiring world.

The Speaker, either of the Commons or the United States House of Representatives, is the servant of its rules. "He has neither the eyes to see nor the tongue to speak, save as the House is pleased to direct him." The leader of the majority and the leader of the opposition are the autocrats who decide what topics shall be discussed, and who shall speak, and no member has license to sound his basses except by their gracious leave. Years ago, Saturday of each week was reserved at Washington for irrelevant oratory. It was known as "swashbucklers' day," and there was seldom a quorum of the House present, while the galleries presented a panorama of empty seats. But the reporters were in attendance, and the speeches were printed in the Congressional Record the next day, and mailed by the orator to his constituents, who believed that their representative had "made a listening Senate tremble."

It is to be regretted that Mr. O'Connell's unspoken speech on the tyranny of the Speaker could not have been printed and sent to the editors of Democratic journals throughout the country. They could have changed names and places and printed it with flaring headlines as "A powerful philippic against Cannonism."

HEREDITY IN POLITICS.
The Republican party sprang from a union of the aroused moral sentiment of the nation with labor's advanced appreciation of its position and necessities. It was the full fruitage of the tree of liberty planted by our fathers. It is the grandest political organization of freemen that the world has ever known. From its inception it has enlisted in its cause all the better and stronger impulses of the people. For it the tongue of the orator has kindled with the inspiration of hope. For it the strain of the poet has swelled to the sweetness of song. For it the sword of the soldier has flashed along the line of victorious armies. For it hundreds of thousands of brave men went to the dark house and the long sleep. The circling campfires of patriotic armies have burned its history into the soil of the republic. The rejoicings of an emancipated race have chorused its anthems into a strain of undying music, and the banners of a preserved nation flutter its praises to the winds of Heaven.

Are Republicans to be told now to stand back from the presence of the queen they rescued from the dungeons of slavery—the queen whom they placed high upon her rightful throne before the world? Are they to be told now to stand back from the queen of Freedom, their queen, that she may give her purse and her sword, her revenues and her armies into the control of her former jailers? Are they to be told now that all the services to the nation of the grand old party, all its wise performances and all its promises of usefulness, all the pledges of its national platforms, and the pledges given by the lives and character of its leaders, all the utterances of Lincoln and Seward, and Sumner, and Blaine, and the galaxy of statesmen whose names shine like stars in the sky of American history, are to be disregarded and forgotten, and that the time has come when the Democratic party should be placed in control of the nation?

Is not the impudence of the Democratic claim monumental in its proportions? Imagine Oliver Cromwell inviting Charles Stuart to be his First Lord of the Treasury. Imagine Cornwallis running against Washington for President of the United States. Imagine Benedict Arnold demanding from Thomas Jefferson an appointment as Secretary of War. Imagine Judas Iscariot elbowing John away from the sepulchre, and insisting upon his right to personally superintend the resurrection.

Men die, but principles live. It is the sons and grandsons of the Republicans and the Democrats of 1860 who constitute the body of American citizenship today, but heredity controls beliefs and influences actions, and the country will be safer with those whose fathers fought and voted to save their country than with those whose fathers fought and voted to destroy it.

CARTOONS IN VERSE.

Lays of Central Park.
[On all four sides of the park the present trees will be cut down and replaced by palms. Thirteen of the palms have been bought, the board paying \$11.75 for them. All poles on streets near the park will be painted a dark green.—News Item.]

Song of the Park Commissioners: (with feeling.)
We are the Park Commissioners,
A presto-change-quick bunch;
We make old parks as good as new
'Tween breakfast time and lunch.
What's up, pull down! What's in, throw out!
What's new, make old and quaint;
Change bushes, walks and lawn and flowers—
Things must be like they ain't.

Then rip the concrete up the back,
Bring axes for the trees,
Push those old clouds back from the skies,
Blow up a different breeze.
Then hurry fast—(but take your time)
All over town bay paint.
And spread our favorite green around,
Things must be like they ain't.

Chorus of brick walk artists: (without feeling.)
We'll lay the brick,
But not too quick,
Most any mick
That you might pick
Could do the job
And do it quick.
But such a trick
Would make us sick.
We'll lay the brick,
But not too quick.

Nurserymen's quartet: (Key of A sharp.)
Feed-the-foe-fun
I smell money, let's get some.
Catch the Park "Com." Hypnotize him;
Then before he can take heed,
Sell him stuff he doesn't need.
Feed-the-foe-fun
I smell money, let's get some.

Large chorus of tourists: (Key of A flat.)
All the summer, all the fall,
In the East we heard the call
Of our little Central Park.
Scene of many a former lark,
Where we loafed the winter through,
Now it's closed; it can't be true!

But we shall not sorrow as those without hope:
Our children may yet live to see it reopen.

Chorus of citizens: (In a minor key.)
We were willing to wait years for the fence
To commence,
And to finger half a century for the gate;
But to see the finest line of trees in town
All cut down!
You'll forgive us if we seem to be irate,
In their place will stand a scraggly lot of palms.

Asking alms
Of our patience, like poor beggars, if you please.
O, Commissioners, we ask you if you won't
Drop this stunt;
Build the square to suit yourselves, but spare our trees!

HAVEN CHARLES HURST.

PROGRESS IN CALIFORNIA.

BY WALTER J. BALLARD.
Bank clearings and building permits in California as reported to the California Development Board and otherwise for January were:

	Bank clearings.	Building permits.
San Francisco	\$206,681,914	\$1,750,541
Los Angeles	78,803,284	3,000,000
Oakland	17,454,945	388,689
Sacramento	4,227,761	268,026
San Diego	2,375,287	111,850
Fresno	2,054,587	no report
Stockton	2,947,706	101,590
San Jose	2,043,784	20,040
Pasadena	3,610,077	100,000

a very creditable record for the nine cities only.

The Panama-Pacific International Exposition will be held in San Francisco in 1915. Congress has appropriated \$747,000 for the improvement of Humboldt Bay, and \$30,000 for an Indian Industrial School at Guinda, in Yolo county. A trust company has been organized to construct a harbor at Crescent City, Del Norte county.

December witnessed 1234 new registrations of motor vehicles with the Secretary of State.

The census returns show that California has thirty-one towns of over 5000 population and three of over 100,000, one of which, Los Angeles, has (a year ago) 319,198, and one other, San Francisco, 416,962. California is now twelfth in the line of States, instead of twenty-first, as in 1900.

January, 1911, was a month of unusually heavy precipitation in all parts of California. Much snow in the mountains—exceeding that of any January for years past. At the lower levels the rainfall was the heaviest since 1862. The month closed with an abundant supply of water in sight and much water running to waste that ought to be stored.

California was well represented and advertised during January at the Land Show in Omaha, Nebraska. The California Development Board and five counties had exhibits; four illustrated lectures on the State's resources were given each day. January 25 was California Day; the Nebraska Legislature attended in a body.

Though January is the dull month of the year, every line of California industry showed activity.

Government engineers announce the completion of the Orland irrigation project, covering 14,000 acres, and that three new ones are planned. A project is under way to put under irrigation 1,800,000 acres of the Miller and Lux ranch on the west side of the San Joaquin River. Other irrigation and reclamation projects are under way in Tehama, Glenn, Colusa, Butte and other counties.

The United States Farm Lands Company, capitalized at \$30,000,000, has established headquarters at Sacramento, and through its subsidiary companies expects to do much colonization work in the near future.

The influx of home-seekers continues unabated; witness the streets, depots, hotels and lodging-houses of Los Angeles. This year's acreage of wheat and barley will be largely increased. There is extensive planting of orchards, both citrus and deciduous. The vineyard acreage is also being enlarged. Mining and oil development is active. Railroad building and extension is active. The Colfax cut-off on the Southern Pacific is to be completed by July 1.

A large sale of timber land, 103,000 acres in Tehama, to a Chicago syndicate, is reported.

Pen Points: By the Staff.

Have you done any early shopping, your valentine?

Why doesn't David Belasco arrange to stage that Mexican revolution?

What is the use of putting a hypothetical question to an alienist who is expected to testify that, under the conditions described, the man was insane? Why not ask the alienist, anyway?

The Nevada Senate has passed a bill prohibiting the use of cigarettes in that State, and it is believed that the House will concur. What are the beautiful diversions in order to pass away the time when they become residents of the State?

Just as soon as it can be proven that the women of California desire the ballot, the boon will be accorded to them.

There are too many of the ladies who are using the methods of the art of the "cause." Why don't they get together?

Three cruisers, California, Pennsylvania and Dakota, will be anchored off the coast of Los Angeles during the convention of the Navy League in March. Entertainment for the officers and the jockies ought to be provided. A time there was when the cruised force of the United States. The scheme of rehabilitating the navy by curbing the Cleveland administration.

The Human Face.
The human face—have you ever smiled? Upon its power, this little round globe, the thumb and fingers span it—have you tried to sound its depths, its love to love, its own light?

The eyes that look at you with their own light.
That quicken to the highest of all.
To Hell and all forgetfulness of the eyes so potent with the light of soul!

The human face—these lips that feel
All that the world can hold from the pole;
Their kiss can change a kingdom, and well
Of human destiny is there—they can win!

We shall be judged by eyes and not by last.
Whatever life may come—whatever is passed.

Events in Local Society

M. R. AND MRS. EZRA T. STIMSON of No. 825 West Adams street are entertaining two attractive visitors from Seattle who are responsible for a large part of the week's fun. Mr. Stimson's niece, Miss Achaah Stimson, and her chum, Miss Katherine Kittling, from the same place, are the young guests. Monday evening Mrs. Clifford Anthony of Seattle, who is domiciled in a home on West Adams street, was hostess at a theater party at the Belasco followed by supper at Hotel Alexandria. Covers were laid for Mr. and Mrs. J. W. Dunham of Chicago; Charles Henderson and Mr. and Mrs. Stimson. Miss Stimson and Miss Kittling will be the

Miss Elizabeth Gleeson, who has been the house guest of Mr. and Mrs. R. B. Stevens for the past fortnight.

honorees today at an auto run to Long Beach where luncheon will be served at Hotel Virginia. On this occasion the hosts will be C. D. Stimson, A. D. Stewart and Mr. Andrews of Seattle, who are enjoying a visit at Hotel Raymond. Others to take the merry jaunt are Mrs. Anthony, Mrs. Dunham and Mr. and Mrs. Stimson. Friday evening, Mr. and Mrs. Stimson will give a dancing party for the young visitors at their home. Dr. and Mrs. Herman James also complimented the Misses Stimson and Kittling. This affair was in the nature of a box party at the Orpheum followed by supper at the Alexandria. The party was shared by Mr. and Mrs. Stimson, Mr. and Mrs. Arthur Peck, Mr. Warner, Mr. and Mrs. Dunham, Phil Lindley and Edward Jans.

Prosperous Couple to Wed.
C. P. Houghton, third vice-president of the Los Angeles Gas and Electric Company, will be united in marriage Saturday evening to Miss Mary Bradshaw, daughter of F. M. Bradshaw, a well-known mining man of Los Angeles. The service will be read in St. John's Episcopal Church in the presence of several hundred guests. Miss Grace Bradshaw will attend her sister as maid of honor, and W. E. Houghton will serve as best man. Little Marie and William Houghton, niece and nephew of the groom-to-be, will assist as flower girl and ring bearer.

Cousin Honored.
Miss Mary Dickinson, of No. 2656 Vermont avenue, who has recently returned from a four months' tour through the East, entertained with a luncheon Saturday in honor of her cousin, Miss Helen Boal of San Diego, whose engagement to Horton Titus was recently announced. Miss Boal has been visiting at the home of her uncle and aunt, Mr. and Mrs. George Dickinson, of No. 423 Andrews boulevard.

Married Recently.
Announcement is made of the recent marriage of Miss Ethel U. Baker, daughter of Mr. and Mrs. N. C. Baker of Elgin, Ill., and Milton G. Kern of this city, which was solemnized in Rev. Howe's church, in the presence of a few friends. At the conclusion of a trip, the bride and groom will reside at No. 821 West Ninth street.

Pleasant Party.
Mrs. George F. Ross of Altadena assisted her daughter, Miss Marian, yesterday, in entertaining with a charming card party at Hotel Pepper. In compliment to her cousin, Miss Harriette Tate, of Hotel Hollywood, who is soon to be married to James E. Lewis, Carnations and roses in great quantities brightened the rooms. The young hostess was also assisted by Miss Anna Smith and Miss Helen Bittinger.

Society Party.
Miss Bess Linder and Miss Ella White Foster, of the Alpha Chi Omega sorority, presided at a "500" party recently at the Forest Square for members of the Epistol Chapter of the University of Southern California and members of the Delta Delta Chapter of Los Angeles. Score cards were in the form of a tyre. The sorority colors were used in decorating. The guests were Miss Aris Marchant, Miss De-Right Stevens, Miss Emma Williams, Miss Sue Shank, Miss Olive Berryman, Miss Lucy Adams, Miss Mildred Finch, Miss Sylvia Tischauer, Miss Anne Shepard, Miss Jessie Chushman, Miss Shelia Myers, Miss Pansy Newlin, Miss

land interests in the North. While here he is visiting his brother, C. E. Jones of Lancaster.
J. R. Toole, former Governor of Montana, arrived at the Lankershim yesterday from Coronado, where he, with his family, has been enjoying a vacation. His home is in Missoula.
William R. Nieper of San Francisco is a recent arrival at the Hollenbeck. He is the European representative of the Nathan-Dohrmann Importing Co.

R. E. Connolly, publicity agent for the Panama-Pacific Exposition, and J. Hirsch of the northern city are staying at the Angelus while in the city.
A tourist party at the Van Nuys is made up of Mr. and Mrs. O. K. Wilbur, their children, J. W. McCarroll and family, all of Idaho Falls, where the gentlemen are in the produce business.

C. Fitzsimmons and wife are guests at the Angelus. Fitzsimmons is a mining man of Duluth, Mr. and Mrs. Edward P. McCabe of Philadelphia are also staying at the Angelus. C. W. Connell and wife are staying at the Hayward. Connell is a broker of Elgin.
E. E. Twiss, a South American mining man, from the Rio Mata country, is staying at the Alexandria. He is on his way back to his properties after purchasing supplies and machinery here.

Chester Kelley, the new manager of the Marx Hotel of San Francisco, is at the Hollenbeck. He was formerly representative of the Del Monte and other tourist hotels of the Pacific Coast.
T. S. Doyle, editor of one of the papers of Aurora, Ill., is a recent arrival at the Hayward. William Menka, a feed and grain merchant of Detroit, is staying at the same hotel.

J. W. Zimmerman, a potato broker of Carbondale, Colo., is a recent arrival at the Westminster. He is accompanied by H. W. Hambro of Richmond, Utah.
E. J. de Saba, Jr., a member of one of the very old California families and San Francisco capitalist, is a guest at the Alexandria. He is accompanied by his wife, two daughters: Mrs. C. P. Tobin and Miss Perkins, as well as a number of servants.
Charles G. Olds, accompanied by his sister, is a guest at the Lankershim. He is of the Detroit family which was first notable in the carriage business and later branched into the manufacture of automobiles.

ELYSIAN PARK FOR UNIVERSITY.

DR. WIDNEY CALLS IT THE NATURAL LOCATION.

Speaker Before Improvement Body Not Only Urges State Educational Institution as Right of Southland But Picks Site and Gives Many Reasons in Its Defense.

Chief among the reasons which he adduces for a State university in Southern California, Dr. J. P. Widney, in his most recent address before the North, Northeast and Northwest Improvement Association, cites the fact that, by reason of its natural conformation as well as because of its great length, California is in reality two states, both of which are equally entitled to the advantages which such an institution carries with it.

"It cannot be expected," said Dr. Widney, "that our population should depend for the higher education of its children upon a university 400 miles away. Even now the burden of expense and the inconvenience are becoming intolerable and will grow more so each year. The time has come for a change and that change must be the establishment in Southern California of duplicates of every educational facility now held by the northern portion of the State through state money. It is not a favor asked. It is the just right of the South and nothing short of this will suffice or satisfy."

Granting such an institution should be established in the Southland, Dr. Widney proceeded to a consideration of the logical location for it. Inspection, he said, of all the possible sites, led him to the inevitable conclusion that the place for a southern university was in Los Angeles and in Elysian Park. "It is," he said, "the natural heart of what is now clearly to be the largest city in California, and the topographical surroundings will keep it the center. For rightness the location is without a rival in the entire section. It is easy of access, the roads afford light grades for foot travel or car lines. The drainage is perfect and the climate ideally healthy."

"It is practically frostless, thus affording the choicest sites for the horticultural and botanical gardens which should be a part of the equipment of a great university. The area, over 400 acres, makes it ample for all future needs. The use of a portion of the park for university purposes would not interfere with its use as a public park. It would simply make it even more attractive. He did not see the expense of improving and caring for it."

"Let Elysian Park be renamed University Park and apart for the intellectual and artistic life of the city and of all Southern California. Erect buildings that shall be architecturally in-keeping with the natural beauty of the site, to be retained, as far as possible, in its native wildness. Let the Normal School be remodeled and become the college of teaching of the new university, selling its present site and relocating in the park, and let the college of medicine pursue a like course."

"I know of nothing else that could so add to the rapid and yet soiled prosperity of Southern California as the movement thus outlined. It would mean the possibility of a liberal education for the sons and daughters of thousands of struggling families, who else must go untrained."

UNIVERSITY AND CAPITAL.
MEETING TALKS OF BOTH.
The meeting called at the Hotel Alexandria yesterday afternoon, by the Teachers' University Association went straight to secession in so far as the attendance by others than members was concerned. State division was talked from first to last. Some of the speakers, however, carried the fire of anger and bespoke a fixed intent. "Two or three bosses are shutting the proposition for a State university for Southern California out of the Legislature," said H. S. McCallum. "In its place they are offering us something we do not want. It means when we tell them in the North that the South has the majority population and wants a square deal. They want to give us

HIGH O-M-E

That's the Proper Way to Pronounce Hyomei, the Famous Catarrh Remedy Made from Australian Eucalyptus and Other Antiseptics. Just Breathe It.

If you will use a common sense method, getting rid of catarrh is easy. Germs cause catarrh, you know that and you also know that in order to end catarrh you must destroy the germs.

In every HYOMEI outfit which is sold by druggists everywhere there is a bottle of antiseptic liquid that will kill catarrh germs.

Pour a few drops of this liquid into the little hard rubber inhaler which comes with the outfit and breathe the now antiseptic vaporized air over the membrane of the nose and throat infected with catarrh germs.

It's pleasant, soothing and healing is this vaporized air and it is really the only remedy known that can reach and kill catarrh germs. Complete outfit \$1.00 at druggists everywhere. It is guaranteed.

To break up a cold in the head or chest over night, try this just before retiring. Into a bowl three-quarters full of boiling water, pour a teaspoonful of HYOMEI, cover head and bowl with towel and breathe the vapor. Use the antiseptic, healing vapor that arises.

and want up to be the tall. We have been the tall long enough."

S. A. Widney said, "The South has been sold out. We are the victims of a conspiracy. The Legislature has been sold to the Legislature for 25 cents' worth of fruit and they are offering us a quarter's worth of garlic instead."

"We will offer them a proposition giving us a State university for Southern California without requiring a constitutional amendment to do so, and if they turn us down on anything as far as that," said Dr. J. P. Widney, "we will have another argument in favor of division. I probably should not say it, but since the South has a majority of the voters, I am inclined to think it might be a good plan for us to get together on a proposition which would bring the State capital and the State university to Southern California."

The North, Northeast and Northwest Improvement Association yesterday made the Governor and the Legislature a proposition to give the South a State university under the same president and the same board of regents. The plan is to move the State capital and the State university to Berkeley. This plan includes a \$1,000,000 appropriation for the proposed southern wing and the State university at Berkeley.

The Teachers' University Association yesterday testified before the Governor that "It is the sentiment of the teachers and the people of Southern California that we continue this campaign and stand unconqueringly for a State university for Southern California."

The statement was repeatedly made that Throp Institute is a present vestment for the State as a present because, the speaker said, it is too far removed from the center of population.

LETTERS TO "THE TIMES."

JUSTICE TO THE ACCUSED.
PASADENA, Feb. 7.—(To the Editor of The Times.) Since the pardon of a criminal for a crime he did not commit, I have dwelled upon the people that our criminal laws need revising, and a good being would seem to be authority for paying the lawyer appointed by the court to defend a prisoner who has neither money nor friends.

Such service is understood to be gratis, and like many other things which cost nothing are frequently dear at that price. No lawyer can afford to give the time and labor necessary for an intelligent defense in a case so important as a murder trial, consequently such proceeding is often farcical.

There is a necessity for a mission whose duty is to watch criminal courts and "rescue" victims of their unjust decisions.

The released man is free and he may return to his family if he can find it, but he is as poor and friendless as on the day he was released. He is forced to pay the State for his twenty-four hundred days of enforced idleness in simple justice. He is a free man to the full extent, but his punishment continues. Having violated no law, there is no basis to condemn him. He does not want and could not ask forgiveness. Release, bearing no other name containing no hint of crime, unnumbered by adjectives, is a free man to the full extent, but his punishment continues. Having violated no law, there is no basis to condemn him. He does not want and could not ask forgiveness. Release, bearing no other name containing no hint of crime, unnumbered by adjectives, is a free man to the full extent, but his punishment continues.

England has frequently paid similar debts of honor where the amount claimed was very large. Having discharged its pecuniary obligation, the law could offer no further relief.

Gonzales is a free man to the full extent, but his punishment continues. Having violated no law, there is no basis to condemn him. He does not want and could not ask forgiveness. Release, bearing no other name containing no hint of crime, unnumbered by adjectives, is a free man to the full extent, but his punishment continues.

Liberally paid defense and insistence upon exonerating only an absolutely necessary to conviction for murder might prevent recurrence of similar cases.

PLANS BURGLAR ALARM.

To install a municipal burglar alarm system with the terminus in the Central Police Station, is the plan of Chief of Police Sebastian, as outlined yesterday afternoon. The merchants in the downtown district will be notified and if they assent, steps will be taken immediately to give the added protection to the stores.

Sunday—Early Closing for Classified.
In order to properly handle real estate classified advertisements, the volume of classified advertisements will be reduced by handling in copy for Sunday as early as possible. Closing hour for Sunday real estate advertisements will hereafter be 4 p. m. Saturday.

"Want" ads, to let's, etc., will be accepted until 11 p. m.

"The Times" Branch Office.
118 South Broadway, 2nd floor north of Chamberlain's, advertising rates and subscription taken; courteous attention.

Sports Blame Tom Williams for Death of Racing.

DOLEFUL DIRGE AT EMERYVILLE.

Keen Gamblers Hovering
Poised, Vulture-like.

Splendid Thoroughbreds Sell
for Next to Nothing.

Tom Williams Viper Which
Has Stung Racing.

BY R. A. WYNNE.
[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, Feb. 7.—[Exclusive Dispatch.] Out at Emeryville there is a doleful dirge issuing from the paddocks and training stables. It is the swan song of the racetrack gambler and his satellites, who are facing the final quietus to the horse-racing game in California.
There are but seven days left before the bars are put up at the racetrack and the race horses resume their work of delivering the morning's milk.
It is a sad scene, and one that is touching; especially the touching portion, as this is the principal vocation to which the racetrack habitues look forward.
Getaway money must be secured; feed bills, which have been accumulating for the last month, must be met, and there is but a short time to do it in. As a result, some of the rankest frame-ups ever pulled off on an American racetrack are expected during the last few days of this last meeting in California.
Already many of the poorer race horses have been sold. Some of them have gone for \$25; some for more. The jockeys are sad, and see their gay and festive steeds go down to the highest bidder for paltry sums like \$25 or \$50.
It is a stern fact that the racetrack followers are now facing. There is not the slightest hope for at least several years. They have been chased from place to place, and they have continually deluded themselves with the idea that they would finally win, and be permitted to continue their vocation.
"WOE IS ME."
But alas and alack, the racing game in California is deadlier than last year's bird nest.
The cause of it all is summed up in the name of one man. It is Tom Williams, who is the whole California Jockey Club rolled into one. I made diligent inquiries from men who have fancied the sport of kings and who have expended thousands of dollars to satisfy their desire; I have inquired from merchants who think that horse racing is a proper sport, and one that caters to the wealthy stranger in California; from the crackpot sportsmen and reporters of the San Francisco papers—those men who know exactly what is wrong and who caused it, and who cannot print it for business reasons. The answer was always the same. It is Tom Williams. He did it with his little hatchet.
Williams has been the autocrat of the racing game in California and has persistently forced out other men who had different ideas as to how the game should be handled. He secured control of the California Jockey Club and it has been the mailed fist ever since, until now the State has stepped in and put the gentle kibosh on Tom Williams.
It is a sad but true fact that the public is suspicious of the last few days of racing. They are attending the track all right but when they walk by the betting ring and glance toward the line of bookmakers they convulsively clutch their pocket books and flee.
They cannot be interested in the odds, no matter how tempting. They know that it would be far safer to buy themselves a large stick of dynamite and carry it around in their pockets.
The fact is that the bookmakers and horsemen need the money too sorely to be trusted by the public.
DOG EAT DOG.
As a result the betting ring at Emeryville is composed of shrewd-eyed gamblers. It is literally a case of dog eat dog and the devil take the hindmost. Every race is looked upon as being fixed and no one who does not think he is on the inside of the frame-up will even be seen within a stone's throw of the betting ring.
Wherefore, instead of picking the public for the get-away money, the hard-up horsemen have been obliged to sell their horses for what they could get to lift attachments for feed bills.
Although a race horse, when it is not racing, is a pretty worthless piece of machinery, several "country gentlemen" from Southern California and also from the bay counties have come to Emeryville to purchase desirable mounts. They have been able to secure good riding horses at ridiculous figures.
At the close of this last meeting it is stated that what horses are not sold will be shipped to Salt Lake and Denver where meetings are to be held. Others will be shipped back to the Middle West where they will make a fruit of some of the State fairs and pick up a little loose change.
There are still others who, despite belief that California will yet see horse racing, but it will have to go down to Tia Juana to see it. The believers will try to board their horses until the matter is settled.
It is understood that the same people who are buck of the horse track and also a few who are interested with George Rose and Barney Schrieber in developing the Tia Juana project, have been offered to the Tia Juana folk for \$15,000. It can be taken down easily and can be erected at Tia Juana for about half of what it would cost to build a new one.
OVER THE BORDER.
The Tia Juana project seems to be the one hope that has interested the principal horsemen of California and a few of the wealthy bookmakers. Rudolph Spreckels, the reformer, who went through the form of disposing of his fine stable of racing horses when the firelight was turned upon him, is understood to be well impressed with the Tia Juana project. Adolph Spreckels, who has during the last year spent

stable, is very much impressed with it. The concession has been secured in Tia Juana and the horsemen up here think it will go through and a veritable Monte Carlo be started just over the line from San Diego. The big tourist hotels at Coronado and San Diego are enthusiastic over it. A few days ago when I was in San Diego I heard many prominent business men of the city state their favorable attitude toward the race track. They are a unit in believing that it will bring more wealthy people and help to entertain the wealthy tourist who is here now. The recent bill which has been passed by the Legislature making an appropriation for county and State fairs is being watched eagerly by the horsemen. They think that it may develop into a nice meal ticket for them while they are waiting for the present spasm of reform and reforming, will be held. Of course there will be no betting, but the horsemen think that they can secure some good purses if they hold on to some of their best horses.
With the faint hope that something might be done to better conditions for the horsemen, racing men in San Francisco are discussing an attempt to secure the legalizing of the Paris mutual system of betting in which no bookmaker figures but a machine does the work with a slight percentage of profit to the racing association.
Racing men do not have a great deal on their success in this matter, but it is expected that some attempt will be made before the present Legislature adjourns to get the system established.

In Hunting Costumes.
FAIR DIANAS FULLY ARMED.

Joy Jaunt in Nineteen-Eleven Everitt Touring Car.

Hunting Parties go Motoring for Roadside Ducks.

Automobiles Again Traverse Roads Without Sinking.

Automobiles resumed their places at the head of the procession again yesterday, replacing mud wagons and motor boats as prominent methods of locomotion. It was the first good motoring day since the rain.
Although not in the best of condition, the roads were reported as open for pleasure traffic again. Several parties of hunters went out with touring cars after the ducks which love the overflow puddles better than any game preserve ever devised. Each fair dame carried either a light shotgun or a rifle. Had a duck or goose dared to stray across their vision they would at least have shot at the bunch of feathers. Though they did not fill the game bags they had just as much fun as the men who bag the limits on the duck ponds.
Following through the slush of the city streets in a nineteen-eleven Everitt touring car, proved a good starter for a sport over the county highways. The boulevard to Venice was enticing and Tom Williams took a party of pretty girls over the smooth highway after he had driven them through the mud of Pasadena avenue to the Arroyo Seco.
The manager for the H. O. Harrison Company was given a chance to test his new car on the worst of roads and over the smoothest of boulevards. Into the bed of the Arroyo Seco in search of a picnic spot Williams sent his car. He found the place and it proved delightful to the young women.
Those who enjoyed the outing were the Misses Eva Olivetti, Draxy Harlan, Laurie Johnson and Beatrice Stanford. The five-passenger car took the party out to the slush of Buena Vista street. The car made good, though the roads were fierce. Then Pasadena avenue was reached and here the mire was even fiercer.
When the pavement of the city

Forms League.
HIGGINS PUTS HOCKEY CLUB ON THE FIELD.

PAT HIGGINS, the famous Rugby football crack, and Clarence Robinson, one of the best hockey players in the country, have set about to organize a new hockey eleven in this city and have already secured the required number of players. Higgins played the game in Australia, where it is highly popular, and while he is considerably out of practice, he feels confident that it will not take him many days to get back in his old time form. Robinson, who is assisting Higgins in rounding out the new eleven, played the game in England for several years. He is an authority on hockey and without doubt one of the best players in this country. R. O'Albany, Chancellor, for several years a member of Canada's fastest hockey team, is now living at Garvanza, and is anxious to get back in the game.
Prospective members of the new team will begin practice in a few days. Higgins, Robinson and Chancellor will coach the team and expound the finer points of the game to the unseasoned players.
The new team will be called the Los Angeles Hockey eleven and will hook up in the first game with the Santa Monica team, which has been in existence for two years.
While English hockey has never been played in Los Angeles it is a popular sport in many sections of this country and is growing more so yearly.
It is a mighty strenuous game and condition and stamina count as much as skill and accuracy. Eleven players compose a team and the players wield long curved sticks and play with a rubber ball similar in size to a cricket ball.
An effort will be made by Higgins and Robinson to organize teams in Santa Barbara, Redlands, Riverside and San Diego. If they are successful a hockey league will be formed and a regular schedule outlined.
The following players have been selected by Higgins to play on the team: T. Killane, H. Wilkes, "Thad" Elliott, Jayson, Waverly, Chancellor and Robinson.
"We are doing our best to get together a strong combination," said Higgins yesterday, "and if there are any hockey players in the city who would like to try for the team I wish they would drop me a line. Hockey is a dandy fine game and very exciting. Some people imagine it is a tame affair because women play it occasionally, but such is decidedly not the case. I feel certain that the sport-loving citizens of Los Angeles will take to the game and there is no reason why we shouldn't play six months out of the year."

Merrymakers Out for a Jaunt in a Nineteen-Eleven Everitt Touring Car. The machine was driven beneath a giant sycamore in the bed of the Arroyo Seco and the girls clambered into the branches when one dared the other to climb up the tree-trunk.

In the Net.
BIRDS SHIPPED OUT AS FRUIT.

GAME OFFICERS ARE CURIOUS AND PROBE PACKAGE.

Italian Laborer Fills Order for San Francisco Friend and Gets Into Trouble—Songsters Slaughtered for Epicure's Table—To Fill Jails With Law-Breakers.

[BY DIRECT WIRE TO THE TIMES.]
LONDON (Cal.) Feb. 7.—[Exclusive Dispatch.] A local Italian, L. Spadoni, employed as a laborer on the George Daniels' place near here, a few days ago prepared for shipment an assortment of meadow larks, robins, yellowhammers and California thrashers marked the consignment "fruit," and expressed it to G. Girami, San Francisco.
Fish and Game Commission officers there were inquisitive to ascertain whether Placer county was a rival to Luther Burbank to develop ripe fruit for the market in January.
On finding the birds, all of which were protected varieties, they wired Deputy Commissioner Carpenter at Marysville and that officer with officer Bowers is busy rounding up a large number of Greeks and Italians who have been hunting without licenses and killing protected birds. Spadoni is to be prosecuted for his offense, which he committed as an act of kindness, so his motive force imperative.

eleven automobile, and the very latest thing in hunting costumes; but it is not of record that they wreaked very hideous slaughter among the roadside ducks.
It was a novel joy-jaunt in which the new model Everitt played a most important part. The young ladies climbed huge sycamores and waded through deep creeks. Each fair dame carried either a light shotgun or a rifle. Had a duck or goose dared to stray across their vision they would at least have shot at the bunch of feathers. Though they did not fill the game bags they had just as much fun as the men who bag the limits on the duck ponds.
Following through the slush of the city streets in a nineteen-eleven Everitt touring car, proved a good starter for a sport over the county highways. The boulevard to Venice was enticing and Tom Williams took a party of pretty girls over the smooth highway after he had driven them through the mud of Pasadena avenue to the Arroyo Seco.

The car made good, though the roads were fierce. Then Pasadena avenue was reached and here the mire was even fiercer.
When the pavement of the city

WORLD RECORDS SMASHED BY DE ROSIER ON MOTOR.

JAKE DE ROSIER on an Indian motorcycle, smashed all world motorcycle records from one to ninety-two miles. His remarkable performance was carefully clocked. Expert timers and experienced judges and scorers were in charge of the time trial.
Whirling around the pie-pan at a terrific pace, the daredevil Frenchman surprised the group of officials as he dashed over the boards. At the beginning of the ninety-third mile the gasoline tank was dry and the world record run came to a finish.
All marks to 100 miles would certainly have been smashed, barring accidents, had the gasoline pipe been well supplied. The speed of the machine surpassed all previous efforts of De Rosier, who proclaimed himself the premier motorcycle rider.
The world record for the mile was shattered by De Rosier as he started his long race. He tore over the boards making the first circuit in 41 1/2 seconds. The five-mile mark of 3m. 23 1/2 seconds was remarkable because it was made in such a long test. The automobile world record held by Ralph de Palma in a Fiat sixty-horse-power car is 3m. 14 1/2 seconds.
The time for the fifteen miles was 16m. 45s. 34s. Barney Oldfield, with his De Soto, made the fifteen miles in 12m. 32.04s.
The time for twenty-five miles was 27m. 41 1/2s. This beats the time of 27m. 21.07s. made by the Indian, which De Rosier riding like the wind, finished the fifty miles in 55m. 41 1/2s. This beats the time of 55m. 55.55s. on the same track. Jake finished the ninety-second mile in 13. 4m. 25s. The machine was in fine shape and the man could have ridden another ten miles if he had been able to keep the car moving with about a pint of gasoline. Ray Harroun's record for 100 miles in a Marmon on the same track in 18. 16m. 21.96s. Jake might have beaten him, as he should have made the last eight miles in less than ten minutes.
The officials were: Roy Simonds, referee; H. L. Gardiner, H. S. Hickok, Frank Harlan, Timers; D. W. Semple, H. R. Craighton, C. R. Kittle, judges; C. A. Thompson, Ed. Lingenfelder, J. A. Johnson, scorers; James E. Hopling, starter.
The Indian, which De Rosier drove, wore Goodwrench, Blue Stream, racing many, who became wild on her way to this country and was lost.

REAL TALENT WILL APPEAR.

Benefit for George Junior Republic
Promising Entertainment of High Class in a Children's Play.
Miss Watters, the clever child actress the Burbank, has been secured for leading role, "Chub, the Newsboy," the play, "The Boy of the Hour," at the Auditorium on Saturday, the afternoon and evening of February 18, for a benefit of the George Junior Republic. Crysine Englar, daughter of Mrs. Louise Englar of No. 1133 West 7th street, will personate Cynthia Key.

The action of the play revolves about these charming children. In the ballroom scene, Chub's dream, little Cynthia makes her appearance in a miniature coach drawn by six Swedish swans. These ponies, said to be the smallest in the world, will be loaned by Mr. Rowa, formerly with Norris & Co.'s circus. From the throne to which the metamorphosed Chub as Queen Charming, secures her, the two will view the dances to be performed at their entertainment.
Some of the best dancers in the city have generously contributed their talents for this elaborate spectacle. Madeline Mattilda, a graduate of La Scala, city, will give a classical toe dance. There will be a Russian dance, and a waltz by a group of society girls, be trained by Henry Cramer. Pauline Smith will contribute a Spanish dance and Little Crysine will do the classical.
Theatricals are being held daily at the Auditorium, under the direction of Miss Ethelyndal McMillin, who is taking part in the performance.
